## RECTOR'S GRADUATION ADDRESS

E te whanau o Hato Patariki, tena Koutou.

Sean Mahony Chairperson of the Board of Trustees, Clare Couch, Board Chair of Proprietors Staff, Father John Walls S.M. our College Priest, Kelly Ross, Vicar of Education for the Archdiocese of Wellington, staff, parents, students, and visitors. A very warm welcome to all of you this evening. It is my pleasure and privilege to present the 2022 Rector's Report to the Board of Trustees, Board of Proprietors and our school community.

We had hoped that we could get through 2022 uninterrupted after a disjointed 2021 but that, of course, wasn't to be the case. 2022 gave us more of the same. It has been another challenging year, and it has impacted the motivation levels of pupils throughout the country. We too, have seen that at St Patrick's College Silverstream. Reduced motivation levels, of course, then influence achievement levels. I have been impressed by the tenacity and determination of many of our students to overcome the obstacles they have encountered. Staff have worked hard to maintain momentum in the curriculum's delivery, so that our students have had the best possible chance of attaining pleasing outcomes. I would like to thank our teaching staff for their dedicated service to our students. At this point I would also like to thank our loyal team of relief teachers who have helped us through the year, allowing the College to remain open for instruction, when regular staff were away ill.

The school enjoyed a year of relative normality in terms of the calendar of planned events. We even held the McEvedy Shield in September after we postponed it earlier this year. The young men of the College could take part in all aspects of school life. However,

as we went through the year, I became increasingly concerned about the interruptions to the education of our young men because of illness.

What is of particular concern is the international research that shows one of the most notable disadvantages in education today is, simply, being a young male. The Australian Centre for Educational research notes that "the concern for boys' education and development was raised because they were over-represented in areas such as remedial education and had higher levels of behavioural problems, while being underrepresented in the study of subjects such as the fine arts, foreign languages and literature". The research also suggests that boys are becoming more disengaged in the classroom, even if they are engaged in the wider school life such as cultural activities, the performing arts and sport. The effect of social media continues to influence our young men and sadly the wider population, which I find interesting, given that social media is not exactly known for its intellectual discourse.

The NCEA system, focused as it is on literacy, is a significant hurdle. Literacy is a major area of concern for boys from primary school right through to NCEA Level 3. There is a greater focus on writing, even in traditionally less literacy-based subjects such as mathematics, that continues to prove challenging for our young men.

The curriculum is undergoing yet another review – while it has been branded a curriculum refresh it appears to be more like a re-write. Whilst this notion may have been done with the best intentions, I question the timing to change the how and the what schools are teaching after three years of disrupted

learning, and all the challenges that came with it. An understanding and appreciation of how schools actually work, when proposed changes to the assessment system, for example, are made, need to consider the realities and practicalities of everyday school life.

As a College, we will develop a learning culture at Silverstream that supports and enables our students to gain these vital skills despite these challenges.

The academic results from 2021 made for interesting reading given the challenging circumstances. Whilst there is always room for improvement, our young men need to continue to strive to be the best possible version God created them to be. To the Year 13 cohort, congratulations on your efforts this year. Your achievements are being honoured at this ceremony. I hope that the education you have received at Stream will stand you in good stead for the challenges you will face in the future. Remember your Catholic and Marist values, as these will serve as a reliable guide in the future. I would like to acknowledge your Dean, Mrs Jane Nolan. Mrs Nolan has worked closely and tirelessly with you for the last five years through your journey at the College. Thank you Jane for your dedication to these young men.

While 2022 again had its challenges, the young men of our school have been able to record some impressive achievements. A full winter sports season was a highlight, as was the return of many of the cultural activities that had been affected over recent times. The performances of our Kapa Haka and Pasifika groups at the Hutt Fest was a wonderful experience. Summer co-curricular activities are in full swing.

I wish all staff that are leaving, all the best for the future and thank them for the commitment and support they have given our school and our young men. At the end of this year, we will farewell four long-standing members of staff, Mr Graeme Hydes, Mr Simon Fordyce, Mrs Anne Whiteford, who are all retiring, and Mr Reuben Pivac, who is moving to a HOD role at Tawa College. Our Deputy Rector Mrs Jane Hambidge, leaves for Naenae College after three years of service. Matua Hona Black has accepted a position in the tertiary field, Mrs Anayibi Laboa to Hutt International Boys School and Mr Peter Dowden has taken a year's refreshment leave.

Mr Hydes began teaching at the College in 1988, and has contributed significantly to the Science department. Mr Fordyce joined the College in 2005, and was appointed to the position of HOD of English in 2008. Mrs Whiteford began at the College in 1999. She has been HOD of Languages and Dean of International Students, and has taught Religious Studies, French, junior English and ESOL. Mr Pivac began teaching at the College in 2009. He has taught

Biology Physics and Science over the years, and is also the assistant HOD of Science.

I would like to take this opportunity to thank the Senior Leadership Team for their commitment and support. As Deputy Rector, Mrs Hambidge has been incredibly supportive in helping me integrate in to the College. Her dedication and common-sense approach are very much appreciated and I wish her all the best in her new position at Naenae College. Assistant rectors Mr Greaney and Mr Burrows have all been busy in their roles. Mrs Kathryn Miles our DRS continues to be the staff member who ensures that we view our day-to-day operations through a Catholic lens. Her guidance and insight are invaluable. Mr Steve Bryan did a sterling job as Acting Rector in Term1, my thanks to him for his hard work.

The non-teaching staff of our school have done a wonderful job and their roles are vital in ensuring St Patrick's College operates efficiently. Every one is an important member of our team, and I would like to thank them for their contribution. Many of them are the first members of staff the public meet when they get to the College. Your polite, patient and helpful manner goes a long way to make visitors comfortable.

Mrs Clark has her challenges keeping the Rector focused and on-task, and she does an excellent job in that regard. Mr Dean has excelled as Dean of Redwood House. Another pandemic-affected year proved challenging, but Mr Dean and his staff did a fine job of ensuring the hostel continued to operate efficiently. Thank you both for your dedication.

2022 saw another round of Board of Trustees elections. The school is fortunate to have such a dedicated and proactive BOT and BOP and it continues to be a pleasure to work with them. I would like to thank Mrs Katrina Mannix who stepped down as BOT Chair at the end of the current term, for her contribution to our Board and our school. I would also like to thank Mr Steel, who stepped down as Staff Rep. My thanks go to all of our BOT and BOP members.

Head Prefect, Seyjay Harawira, has a calm and personable manner, and has been a wonderful role model to our student community. Thank you for your leadership and thoughtful disposition. Rishi Sahrawat and Josh Todd, his deputies, have been a wonderful support for Seyjay. Harrison Owers has been a great leader in Redwood House this year. I wish you all the best in your future endeavours.

I would like to thank Mrs Ferreira and my family for their support. It is a role that places greater demands of one's time, and this can be hard on family. Thank you for your understanding and tolerance.

God Bless you all and enjoy a restful festive season.

Sectare Fidem

# Head Boy's Address

2022 was a year that I would describe as hectic. During Term 1 it felt like a repeat of the 2 years prior, with the cancellation of many events because of the overwhelming threat of Covid. The Years 9's and 10's couldn't witness McEvedy or Old Boys' at its full capacity. There were no ranks or assemblies and with multiple lockdowns and the rostering home of the year levels, it was difficult to bond both as a school and as mates. However, as the saying goes tough times never last, but tough people do and through our faith and as a brotherhood we managed to tough it out showing both resilience and courage. At the end of this term we held our first ranks and the Year 9's witnessed the school haka for the first time as we said farewell to our interim Rector Mr Bryan.

Then Term 2 started. For me, this felt like a fresh start. We welcomed in our new Rector Mr Ferreira and his whanau, it was the start of the new term, Covid was dissipating and winter sports were beginning. We could finally hold things like assemblies and Mass and it felt like the school was finally gelling together. The juniors were learning and mastering the school haka and quickly showed off this ability with a haka for the 1XV, after their first traditional against New Plymouth. Through these traditionals we saw glimpses of a school becoming a brotherhood and this created one of my favourite memories of the year. The boys stormed the field after the 1st XV Rugby team win over WC. Although admittedly we may have taken it a bit too far so apologies to the staff who had to deal with us and the aftermath, however, I saw nothing but pure happiness in all the boys' faces and this is where I believe the school pride and school spirit really took off.

This leads us to Term 3 and what a term this was. Three days into it and we had our biggest traditional against our brother school St Patrick's College Wellington, not long after finals for winter sports began. This is where the school spirit reached its peak and it started with the semi-final of the Senior A basketball game against Scots College. With the game going into overtime it was enticing to watch and had all the boys on their feet both celebrating and chanting. Next was the Junior A final. Once again it was a good game with Stream prevailing. Then the Senior A final. The game was back and forth and so were the supporters but we both beat them in the chants and in the game. This game was not only huge for the Senior A as it was their first time winning and the first time going undefeated, but it also set the mood for the next day which was finals footy. The day started with the U15's beating

WC then the 2nd XV also beating WC and finally the 1st XV winning their final against Town. Throughout all these games we saw an amazing amount of support and there's no doubt that the crowds were the driving force for all our teams. Throughout the entirety of Term 3, there were multiple successes in many sporting areas.

For the Year 9's I hope you've enjoyed your first year here at school and next year you will no longer be at the bottom. The Year 10's, you lot are a handful, however the connections I see in your year level remind me of our group and I hope you continue to provide humour as you start your journey in NCEA. Year 11's, next year academically will be the most important it gets as universities will use these results for scholarships and other things. So work hard but don't forget to have fun. The Year 12's, for those who are stepping up and becoming leaders I wish you the best of luck, and for the select few who get the roles of head and deputy continue to enhance our school. For all Year 12's, spend time with the boys as much as you can. Next year will go by fast and it'll get busy so just remember to take a break every so often.

The staff, thank you for putting up with us all these years, especially our tutor teachers. And a very special thanks to our Dean Mrs Nolan. You have chased us around for the last five years telling us off for not going to classes but no matter what you always had our back and fought for us. Nothing we do will ever be enough thanks for what you've done for us.

And finally, to my boys thank you. Thank you for allowing me to be your Head Boy this year and thank you for always being there for me. The years we have spent together are ones I will always remember and the bonds we have will never be broken. Just know that no matter what happens I've got your back just as you have mine. Our 5-year journey together is almost finished and I would like to thank you for allowing me to be a part of it. So finishing my final address to the whole school I would like to use the quote of the year from our Messiah Toby Mallon. "I love my school and I love my boys"

Sectare fidem, hold fast to your faith

Seyjay Harawira

## Graeme Hydes

Graeme joined the school from Christchurch as a Science and Mathematics teacher. He arrived with a Masters degree in Chemistry from Canterbury University. He carried a love for rigorous Science education and meaningful learning into his classrooms. His passion for science showed when students found the learning difficult. He has been known for his unbelievable encyclopaedic understanding of all aspects of Science education within our department and often recounted banned experiments in greater detail than necessary to any newly beginning teacher. Graeme could always be relied upon to engage his classes with discussions ranging from the ever popular spontaneous human combustion theories, to - did we land on the moon?, and how some movies/tv programmes depicted the creation of drugs in a laboratory setting incorrectly. Graeme's scrawly chicken scratch handwriting on the Senior Chemistry whiteboards will be missed. Graeme could without notes create lessons that drove quickly to the point of allowing his students to really know the most important concepts and not bother with the unnecessary extra note taking. All strong Science teachers get asked to help to teach that other discipline of Mathematics. Graeme showed obviously that this was well within his skill set. Graeme was also involved in the coaching and management of Badminton teams. Many of these students were often highly academically gifted and enjoyed the robust conversations with Mr Hydes in the gym whilst the courts were being set up. To be fair, Graeme didn't always respond well to the nickname he gained from the students of Grover - until he owned this moniker with distinction and garnered respect with the Mr Grover posters making sporadic appearances around the Science office and in the staffroom. Later Graeme could be relied on to give support and guidance to all our newly beginning teachers and training teachers that came through the Science Department. I particularly enjoyed his ability to find a worksheet that would quickly get the idea through to the students from the kilograms of paper that had accrued over the years. The true worth of him as a person is his open and honest wish to make the students in his classes not settle for the bare minimum in their pursuit of furthering their education. He has been an important member of the Science Department. We will miss his unbelievable ability to quickly read and decipher students' work, assign a grade, then provide links to others' work all whilst having a laugh about where the boys have missed simple little things. Thank you Graeme for your service to our department and school. After all of your service you deserve a break and the opportunity to pursue other things.

**G** is for Great faith in Silverstream Science

**R** is for Respected Chemist

**O** is for his Organisational skills

**V** is for Vision that is colour blind

**E** is for his Experience and Loyalty

**R** is for being Ready to help and make a difference

God bless you Graeme Hydes, Silverstream Science teacher for 35 years.

### Shivonne Wilcocks

Shivonne has served the College faithfully over seven years, first as a Teacher Aide, and more recently as our Receptionist, and has been a key face on our front desk welcoming visitors to the College and looking after students. Shivonne was well respected as a staff member, both for her knowledge and the positive relationships she developed with fellow staff members and students. Shivonne had a great rapport with students and went above and beyond to do anything to help them. Shivonne has moved on to work in the health industry.

### Simon Fordyce

At the end of 2004, a late resignation of an English teacher turned into a massive plus when St. Patrick's was fortunate to have Simon Fordyce appointed to the position of Assistant HOD English, to begin teaching in 2005.

Fortunate indeed as Simon already had vast experience in teaching English in six schools, three of which were in England and included fourteen years as a Head of Department. In 2008 he was promoted to HOD English and has remained in that role until his retirement this year.

A feature of Simon's teaching, much commented on by staff and students alike, is his meticulous planning, work ethic and attention to detail. There was not a day when Simon left for home without having all his lessons mapped out for classes on his whiteboard, ready to go for the next day.

The English department also very much appreciated his organisation and hard work on their behalf. Individual teachers, especially those new to the school and profession, benefited greatly from his kind, caring mentoring of them.

Outside of the classroom, Simon made many valued contributions to the wider life of the college. He was involved in Hockey and Table Tennis as a coach and manager. He was also a Bible reading coach for the annual O'Shea Shield competition.

However, many will remember for Simon for his great love of and passion for running. A keen runner himself, Simon could often be seen setting out across number 2 field after school for his daily fix of running endorphins. He was an integral part of many winning staff teams in events such as Wellington Round the Bays and Martinborough Round the Vines. A dream came true for Simon when he won a place in the coveted London Marathon and completed this race in 2013.

Thank you, Simon, for your generous and dedicated service to the College and we wish you and your wife Linda all the very best for a thoroughly well-deserved retirement.

### Brad Hudson President, Old Boys' Association

I am the President of the St Patrick's College Old Boys Association. I attended St Pat's Silverstream from 2000-2004 and taught at St Pat's Town from 2011-2016.

I'm passionate about the Old Boys' Association – it's a great way to get alumni from both College communities together, celebrating an annual Mix N Mingle function, Golf tournament, the Winter Exchange and other activities throughout the year.

For more information, please contact the St Patrick's College Old Boys' Association website, Facebook page / group and Instagram.

## Anayibi Lobo

Ms. Anayibi Lobo joined us from Scot's College in Term 1, 2022 to teach Spanish and Junior Math. She brought with her a wealth of experience as a native speaker, originally hailing from Cali in Colombia. She is a trained biochemist, and leads Wellington Salsa Band C-26. In the classroom, she is an energetic and enthusiastic educator who shares her knowledge and understanding of Hispanic culture. Her learners have enjoyed the variety of learning experiences that her lessons offered, such as writing, speaking, eating, singing, and dancing! Her bubbly persona in the staff room reflected her positive, encouraging, and supportive relationships with colleagues. We wish her well in her new teaching role. Buena suerte en tu camino, alegría en tu destino, fuerzas en ti para continuar sin descansar y una gran sonrisa para alegrar a los que te acompañen en tu andar.

Dr. Liliana Cartwright

## Anne Whiteford

When a young Anne West first took up a teaching position at St Patrick's College Silverstream in 1979, the Rector was Father Fred Bliss S.M. The head boy was Bill (now Sir Bill) English and Gerard Tully a 7th Former.

Within a short time, Miss Anne West transformed into Mrs Anne Whiteford and continued in her capacity as a member of staff until the end of 1982. With her family established Mrs Whiteford returned to us in 1991 and has been with us ever since. Through those years Mrs Whiteford has touched the lives of so many students, with many hundreds passing through her classroom, be this as a Tutor Teacher, or a teacher of French, English, or Religious Education. Mrs Whiteford

also held the position of Dean of International Students and Coordinator of the students in Teaching Training. And of course, she was a very diligent and fair record keeper of track events at the various Athletics meetings.

As a teacher, Mrs Whiteford brought a passion to her classes. When I arrived at the College in 2010 Mrs Whiteford was the Head of Languages and a teacher of French and English. Under Mrs Whiteford's leadership, the Language Department offered Te Reo, Samoan, French, and Spanish. On a personal note, Mrs Whiteford taught both of my sons French and both were successful in their NCEA assessments. Students knew they were in good hands and received a background in the subject.

Mrs Whiteford also led many cultural and language trips over the years and took advantage of the fact that the boys could practise their skills with the French-speaking populations of the South Pacific.

Mrs Whiteford has been a valued member of the Religious Education Department, teaching the subject at all levels through to Year 13. She maintained excellent relationships with her students and they excelled in her classes. She always had high expectations for her students and their achievement. For a period she supported the department in the capacity of co-HOD using her appreciated organizational skills to reform the structure of assessments.

One outstanding skill the College has benefitted from was Mrs Whiteford's organisation of prize givings. That the prize-givings ran so smoothly was down to the effort Mrs Whiteford and her team put into the events. As a staff member, I would sit and watch in awe the ballet which unfolded on the stage as these events proceeded through the evening. It was truly a sublime dance! Anne, you have modeled your strong Christian faith to the staff and students. You encouraged the growth in faith in the boys too. In your words and actions, we see a genuine love of God and a love of neighbour.

With sadness, we farewell Mrs Whiteford as she retires from teaching here at the College. "Bon Voyage", good luck and God Bless. You will be truly missed.

## Hona Black

In Term 3 of 2021, we were fortunate enough to pōwhiri on to the College, Matua Hona Black of Ngai Tuhoe. Matua Hona came to us from Ōpōtiki College where he had been in charge of the total immersion Te Reo Māori pathway. Prior to that Matua Hona spent ten years teaching Te Reo Māori at one of our brother schools Hato Pāora, where he also attended as a student from 2003 to 2007.

While teaching full time, Matua Hona has continued his studies at university, graduating with a doctorate earlier this year. Unfortunately, graduation celebrations needed to be put on hold as his Nan, Anituatua Black passed away at about the same time, and a period of mourning needed to be observed. Not long after his return to school, we could

celebrate with a morning tea and kōrero acknowledging his efforts and the incredibly hard mahi he had put in over several years to achieve a PhD.

With his teaching experience across different subjects, Matua Hona has supported our various departments with their planning as we embark on our Mātauranga Māori journey across our school curriculum.

Matua Hona has a quiet, unassuming nature that belies his vast intellect and knowledge of Te Reo and te ao Māori. He typifies the whakataukī, “Kāore te kumara e kōrero mō tōna ake reka.” The kumara doesn’t speak of his own sweetness.

We wish Matua Hona and his partner, Rachel, all the best for the birth of their baby in December and hope that they both continue to be part of the Hato Pāteriki whānau whānui.

## Jane Hambidge

Jane started teaching at St Patricks’ College in 2019. She had previously held the position of Deputy Principal at Chilton St James School. We appointed her to the position of Deputy Rector, Teaching and Learning, to improve the learning outcomes for students. Several initiatives saw changes that enhanced teaching and learning at the College. During her time at the College Jane has taught Mathematics, Religious Studies, Business Studies, Financial Literacy and Physical Education. She has been a Tutor Teacher, mentoring and guiding her students, as their first point of contact at school.

One of Jane’s extra-curricular activities was being involved with the Pasifika group. The Pasifika Group has been a passion of hers over the years and Jane has developed strong bonds with our Pasifika students and the wider community. Jane was also a supporter of the 1st XI football team, supporting them on Saturday mornings. Key contributions Jane has made are, improved Maori and Pacifica Cultural Competencies for staff and students. Staff professional development sessions around cultural competencies were well researched and delivered and the College staff are far better prepared in their journey to master cultural competencies. Jane embarked on a review of the junior curriculum and local Curriculum development.

Jane leaves St Patricks’ College where she will take up the position of Deputy Principal at Nae Nae College. Jane will continue to lead teaching and learning at her new school and take on other roles of responsibility. I would like to thank Jane for her dedicated service to the school and for her loyalty and devotion to the students of the College.

God bless you Jane and all the best in your new role.

## Reuben Pivac

Nothing says more about Reuben Pivac than this whakatauki. He aha te mea nui? Māku e kii atu, he tāngata, he tāngata, he tāngata. *What is the most important thing in the world? Well, let me tell you, it is people; it is people; it is people.* Reuben has mentored many people, both staff and students through his time at the College knowing the importance of connecting with them and making them always feel important. Reuben joined the school after spending 6 weeks as a training teacher in 2008. His passion for teaching and learning was clear from the outset. His understanding of the Silverstream young man proved to be a natural transition for this Town Old Boy. Reuben had begun his teaching career overseas in Columbia as he travelled the world with his soon to be wife Maritza.

Once returning to NZ he gained his Diploma of Teaching and eventually found his way to us. Reuben always looked for ways to improve not only himself but Silverstream. As a classroom teacher Reuben showed important care for his own students and how each individual needed to be treated so that the movement into Deaning seemed a natural next step. He was initially an assistant dean in a vertical house system, ably supporting Mr Bevan Packer and then graduated to have his own year level once we returned to horizontal levels. Reuben was a Dean for 7 continuous years and dedicated himself to making sure that all of his boys were getting the most out of their time and the most out of their education.

A clear drive to become better was seen no more strongly than his involvement in basketball. A proud Town Old Boy who excelled at the sport he took a struggling sport here at Silverstream to the top of Wellington and into real contenders at a National level. Often just seen as an administrator he was also a very accomplished coach and lately preferred to let others lead with their vision and provide support for the lower grade teams. Without his influence in this area, the future of Silverstream basketball would not be what it is today. It constantly impressed me how he could confidently know everything about all of those in his cohort. This was clear when he was farewelled in 2020 by his Year 13 boys - what an emotional journey this was for him and these young men as they had recently lost one of their own - Cy Florendo.

Reuben was such a vital member of the Science Department as he led important change in the areas of Biology and General Science. He recognised the importance of getting our students out of the classroom and almost single headedly created the trips we carry out with Biology and Level 1 Science. A fluent Spanish speaker Reuben taught Year 9 Spanish to encourage our young men to engage their brains in a new language. This, then led him to develop his Te Reo so naturally.

As Reuben finished his time Deaning he realised the importance of creating a connection to his family and where he could whakapapa for his own understanding of his place in our world. A driven learner he focussed on making connections with the students in his classes. He has progressed through learning Te Reo and has shown competency reaching a strong fluency level. This will serve him well as he moves forward in his career. Inā kei te mohio koe ko wai koe, I anga mai koe I hea, kei te mohio koe. Ke te anga atu ki hea. *If you know who you are and where you are from, you will know where you are going.*

I expect to see him in a Senior Leadership role soon after he revitalises the Science Department at Tawa College. They are the ones who will reap the benefits of the talents of this man.

Tu verdadero valor no se sabrá hasta que no estés aquí. Sé que todos te extrañaremos.

Dios te bendiga a ti y a tu familia. *Your true worth will not be known until you are not here. I know we will all miss you. God bless you and your family.*

# In Memoriam

## Sister Frances Marie Lagan SMSM

Sister Frances was a legend at Stream. She helped, advised and supported so many students, staff and Rectors over so many years. She was a woman to be reckoned with, and whose opinions were always worth hearing. Prayerful and practical are words that I would use to describe her.

As her mobility decreased she became reliant on her little car to get to daily Mass at the Home of Compassion. However, mixing it with the traffic on Fergusson Drive became dangerous for her and other drivers, so the car registration was not renewed. Undeterred, Sister drove the car across the top field to the fence by the Home and walked from there. Boys on the field quickly learnt that expecting her to drive around them was not a good idea, even in the middle of a cricket or rugby game.

May God welcome her into the fields of heaven.

Philip Mahoney | Rector 2006 - 2010

I was sad to hear of the recent passing of Sister Francis Marie.

My first association with Sister was as a staff member teaching at St Patrick's College in 1990 when the Society of Mary still had a considerable number of Priests teaching at the College. Sister was teaching mainly Religious Education and was very skilled in the teaching and administration of Junior classes.

I understand Sister's first association with the College was in 1940, nine years after it opened.

Those students who knew sister understood that challenging her authority would often mean a sharp response of wit finished by a comment of, "I will pray for you".

Sister would often remind me that leadership in the College involves the Rector always showing the value of humbleness or humility, as Mary did. When I was Rector, over the last four years, and visited her onsite, or in the later years in the Home of Compassion at Silverstream, she would always share this thought and a time of prayer and blessing.

Sister's faith was an example to all. In a world of constant challenge and change she always showed her commitment to her chosen Religious Vocation and demonstrated this on a daily basis.

A special thanks must go to Rosalie who has been Sister's caregiver for many years. Rosalie worked in the College laundry for many years as well as being a constant support for Sister both in her well being and faith. Thank you Rosalie and I am sure you have God's blessing.

Sister was never short of an opinion and was quick to offer it if she felt it was warranted. Her opinion was often with the love and direction of God's message. In her later years Sister still maintained her spirit and love for all. She will leave a legacy of hope, faith and charity in the love of Mary.

Rest in peace Sister Francis Marie

Grahame Duffy | Staff 1990 - 1999  
| Rector 2018 - 2021

# Redwood House 2022

For Redwood House, 2022 has been another year of change and frequent disruption. Mr Charles Lloyd, a stalwart of the Redwood House staff as both Supervisor and Director of Boarding, had stepped down at the end of 2021. Covid continued to cause frequent changes to our routines and numbers present within the house, as year groups were sent home for online learning. However, it has been a positive year overall that is leading onto even bigger and better things in coming years.

Kia ora, my name is Sam Dean and I was appointed the new Director of Boarding for the start of this year. I am an Old Boy of the College who has been involved in some capacity for many years. I have worked as a teacher and year level dean for the past 5 years and was a boarding supervisor for a year in 2019. I have been excited and honoured to build on the foundation created by Charles Lloyd and other previous Directors of Boarding this year.

Redwood House saw some other changes in staff occur as well, which changed the makeup of a number of areas of house life. Charles Lloyd (Director of Boarding) and Michael O'Connell (Supervisor) left the team, while Daniel Tagaloa and Oliver Dickie (Boarding Mentors) joined our staff. Gavin Shepherd, one of our supervisors since 2008, also left us at the end of Term 3. We thank Charlie, Gavin and Michael for their service to Redwood House and wish them all the very best for their futures.

We had a strong start to the year welcoming in 19 new Year 9 boarders and have had an exceptional team of senior leaders within Redwood House. Harrison Owers was selected as Head Boarder, and was ably supported by Matthew Cuff and Connor Vaikona as his Deputies. The boys settled in ready for the challenges of 2022 and were also well supported with the following Year 13 boarders being selected for leadership roles within the day school:

<b>Kotahitanga</b> (Organisation of Assemblies/Events)	<b>Manaakitanga</b> (Humble Service to Others)	<b>Nga Whare Toi</b> (Running of our House competition)	<b>Whanaungatanga</b> (Mentoring/Supporting our year 9's)
Lennox Easthope Patrick Solomona	Ariki Tongia	Matthew Cuff Harrison Owers	Jared Carmine Toby Mallon Trent Morgan Tomasi Pavihi Connor Vaikona

**House Culture:** Each term the Year 13 leaders, supported by staff, have organised a range of events, that have enabled us to reconnect as a house, despite so much time apart, due to isolation periods and year levels working online at home. These events have been a highlight of the year and shown the strength of character, resilience and servant leadership that our young men possess, despite their setbacks. Events such as the inter-hostel basketball tournament, movie nights, dodgeball competitions and the Year 13 quiz, were all major highlights.

**Spiritual Journey:** The Redwood House week always begins on a Sunday night when we come together for Mass in our College Chapel. It is always a pleasure to share this with our families and members of the community. Each week, a range of staff and boys from across all year levels are responsible for leading the Mass with our College priest, Father John Walls. Boys lead by either ministering the word or leading us in prayers of the faithful, or simply carrying up the Offertory gifts of bread and wine. The boys are then in charge of leading the house in prayer and reflection each night during the week, focusing on continuing the themes and challenges laid out to us by Father John's homilies. We have been limited in our allowance and readiness to sing at Mass this year due to initial Covid restrictions, but this is something that the boys are keen and excited to bring back for 2023.

We have also been very proud of the young men in Redwood House who have completed the Sacramental Programme. It was fantastic to see Adrian Kuaoni (Year 9), Coby Dixon (Year 9) and Lennox Easthope (Year 13) complete this programme with Father John and then help to actively lead the faith journey within Redwood House this year.

**Academics:** A big challenge in the first half of this year was maintaining academic focus and good habits despite the regular Covid based disruptions to the day school. However, the young men of Redwood House returned from each "break" in their routine with fantastic attitudes and a willingness to put in the mahi. In the evenings, each boarder has the uninterrupted opportunity to study for one hour. This has been completed in year levels in classrooms, with our Year 12 and 13's being allowed in their own rooms, at their desks, building their self-management skills and independence. All of these year groups were ably supported by the supervising staff, ensuring that meaningful learning was happening for the duration of this hour period. It has been fantastic to see our yearly trend continue where the boarders regularly achieve above average in comparison to the day school. This should see another strong showing of Redwood's Academic Prowess in the end of year results.

# Boarding

2022 has been another huge year and the boys should be very proud of themselves for the way they have carried themselves with pride and dignity. Redwood House continues to be a place where young men can pursue their God given talents and reach their full potential. This was seen yet again through a huge number of academic, sporting, cultural and leadership awards gained in 2022, with Redwood House boys leading by example. Gentlemen, thank you for a fantastic year and I look forward to seeing most of you back in 2023. Kia kaha and God bless.

**Harrison Owers:** Kia ora, my name is Harry. Redwood House has been a very special place for me that has provided a lot of support and security over the years. The biggest highlight of my time in Redwood House is not one moment, but spending lots of time with my brothers, as that is what these boys have become for me. We've had lots of fun chatting at meal times, but a major standout moment was definitely the Year 13 quiz night that we held just recently. In the day school, being a part of the successful 1st XV side this year has been awesome and I have learned a lot from the experience. It has been a real privilege to be the Head Boarder of 2022, and I would like to thank my boys for this honour and their support. Next year I will be heading down to Otago University to study Māori Studies.

**Trent Morgan:** Kia orana, ko Trent toku ingoa. I have had many highlights during my time at Silverstream, including my academic successes, going to Nationals for Waka Ama, and continuing our College dragon boating legacy with an awesome group of boys. Redwood House has had really helpful structures and routines, none more so than having set study times each night that have allowed me to flourish academically. I have also enjoyed the independence that comes with living away from your family. The boys in Redwood House have become my brothers, a connection that I will miss in my day to day. The banter and activities with my mates have been great, and I've really enjoyed having yarns with the supervisors. Next year my plan is to continue my education at Victoria University where I will be studying engineering on a scholarship.

**Toby Mallon:** Hi my name is Toby, and I've been a boarder for 5 years. I've loved living alongside my brothers during this time and am going to miss these guys that I've got to know so well. 2022 has been a special year for me, the pinnacle being named the captain of the 1st XV and leading them to the best ever result nationally for a Silverstream 1st XV. Redwood House has not only been convenient for me and my access to rugby trainings and coaching, but has provided an environment where all the boys push each other to be their best in all areas. One of my major highlights of the last couple of years has been the late night chats with the boys. These are the types of things that I will miss most about Redwood House, the small moments of just being together and hanging out. Next year I will be studying at Victoria University.

**Pano Zaloumis:** Hi my name is Pano Zaloumis. This was my 5th year as a boarder and I found that hostel life added a lot of structure to my life, giving me lots of opportunities to succeed and conquer my goals. I'm proud to have gained Level 1 and 2 NCEA and I've enjoyed participating in a variety of sports across the years. My biggest highlight of boarding was just being around my mates and chatting with them, something you can do all the time when you live with them. Next year I am looking forward to taking on a building apprenticeship.

**Flynn Burland:** Kia ora, my name is Flynn Burland. I have a lot of highlights from my 5 years at Silverstream. Winning the College Sport Under 65 Rugby and Junior A Basketball were definitely up there, and witnessing the 1st XV rugby team win the Premier Championship twice over my time here was an experience I will never forget. These moments stand out for me for the same reasons I've enjoyed life in Redwood House which is for the brotherhood and the mates. I've enjoyed having a laugh with them and living alongside them day in and day out. The hostel has really helpful things like already being on site for trainings and having dedicated study time each night to help us with our studies. Next year I'm hoping to take on a building apprenticeship and start my career in the trades.

**Gabriel O'Connell:** Hi I'm Gabe and this is the end of my 5 years at Silverstream as a boarder. It's been quite a journey and the thing I'm most proud of is the boys growing up alongside each other and striving to better themselves in future. I have great memories of life in the hostel, especially of the boys hanging out and enjoying some jokes and banter along the way. Hostel life has really helped us all, especially having specialist teachers as supervisors who have helped us during the nightly study time. This has also been great for conversations about life in general, not just academically, as the supervisors are very supportive. I'm really going to miss living around my mates all the time and always having the supervisors available to support us. Next year I'm looking forward to starting an apprenticeship at NMW in the HVAC Department.

**Matthew Cuff:** My name is Matthew Cuff but most commonly known as Matt or Cuffy. Together with my best mates I've lived in Redwood House for five years of my life and this is where I grew to become a young man ready for the world outside of school. I have a number of achievements that I am proud of from my time at Stream, including being a leader in the successful dragon boating team, competing in the waka ama team at both regional and national level, being elected as Deputy Head Boarder this year, attending Marist Youth Leader, and gaining an Excellence Endorsement at NCEA Level 2. One of the great things about Redwood House and living in the hostel is the access to supervisors who are also teachers, so you always have academic support available when you need it. All of my highlights, whether it is an event or not, is centered around hanging out with my mates and enjoying our time together. Next year my plan is to move to Auckland and study a Bachelor of Health Science majoring in Paramedicine, with the goal to become a paramedic.

**Joseph Simcock:** Joseph has enjoyed his five years at Silverstream and quietly established himself as a keen scholar with fantastic work ethic. He has been involved in a range of sports and extra-curricular activities including tennis, badminton and choir. This diverse involvement shows the range of talents that Joseph possesses, and we have no doubt that he will find great success in the future.

**Jared Carmine:** Although Jared left us part way through 2022, his impact on Redwood House over his 4 and a half years was immense. Commonly known as JC, he has always been up for a good laugh or a quality and in-depth chat. Jared has always been very supportive of the junior students, often appearing as a popular figure among the Year 9's whenever he was passing through, which is testament to his heart for people. Jared left part way through 2022 and has successfully started a career in engineering and fabrication.

**Tomasi Pavihi:** Tomasi left at the end of Term 3 this year to pursue his basketball dreams, gaining a scholarship to attend a high school in Maryland, USA. Tomasi has always worked very hard to make this dream a reality, balancing his academic studies alongside his sporting goals. We are all very proud of Tomasi for this achievement and wish him all the best for his basketballing future.

## CULTURAL

## Debating

This year in Debating the enthusiasm amongst our team members for the competitive aspect was very strong. A lot of great friendships were forged along the way too.

Covid meant we had to contend with video debates often, which are never quite the same as in person. Things lifted when later in the year, more real debates could happen.

Our Premier A team made it to their Quarter Finals for the first time, and grew in strength and confidence as they progressed. This team also took part in the April Regionals over Zoom which was a great experience. Because they were actually only Year 12, we have the luxury of planning to run them again in 2023's Premier A competition. Our biggest highlight was Junior Cert 2 making it through to the finals of their Grade and then, also for the first time, winning it!

Really looking forward to 2023!

A big thank you to our dedicated staff who put in the time, expertise and kilometers. Without you Debating could not happen!  
Debating Convenor: Mr T O'Connor

***Debating Badges were awarded to:***

## Duke Of Edinburgh

### **The Challenge**

The Duke of Edinburgh's Hillary Award is a great experience, full of opportunities for any young man here at Stream. You have the chance to do things that you never thought you could do, to be introduced to many amazing people and experiences. The Award provides many excellent occasions to learn valuable skills, develop leadership, resilience, and initiative, in an enjoyable and engaging environment. As a Marist, it also creates opportunities to give back to the community and help those in need. It is therefore a programme that encourages growth in all aspects of life and enables you to discover more about yourself.

I challenge all Stream students to take part in such a great programme.

### **Year in View**

2022 is the first year of the Duke of Edinburgh's Hillary Award being opt-out for our Year 10s doing Bronze. This has been slow to get going during the various COVID-19 restrictions, but those who have taken up the challenge have stepped up and been progressing well. Students have been involved in serving the community across the Hutt Valley, including sports coaching, after school care, environmental clean-ups, and collection for charity. Several students have also completed their Award during the year. Congratulations to Jordan Mills, Zachery Bruce, Jamie Campbell, and Lachlan Pitchford for completing their Bronze Award. Old Boy Sebastian Watson (2017-2021) completed his Gold Award this year and will receive this from the Governor General at a ceremony at Government House.

## **Adventurous Journey**

### **Day 1 - Mt Holdsworth Carpark to Totara Flats Hut**

First, we all met up in the Mt Holdsworth car park. We met up with our friends Huia and Ashley who would join us on the tramp. After ten minutes of talking and catching up we started the tramp following another group of students that we were doing the tramp with but in different groups. After 20 mins of walking, we got to "Rocky Lookout" where we had our morning tea and so we could catch our breath. From this lookout we could see for quite a distance, trees below us like a sea. This morning tea break was also a chance to talk more with our fellow trampers and meet other college students. After five minutes we began walking again, taking short breaks to conserve our energy. An hour of relatively easy going (as it was a gentle downhill), we got to a place where it was almost vertical so we needed to be careful that we got down safely. We then realised that we might have to climb up the same place that we scrambled down! Once at the bottom we had our lunch and caught our breath once again. Shortly after lunch we arrived at a small swing bridge that only could take one person at a time. On the swing bridge we could see the hut, where we would stay the night, in the distance. The rest of the walk was pretty uneventful, and we got to our destination, the Totara Flats Hut at 4:00pm, so it took us about 5 and a half hours to complete. We got to the hut in good time which allowed us to socialise with the other trampers before bed. After about an hour of socializing, our guide brought out a radio that all of us had not seen before. This was a mountain radio which could work deep in the bush where other methods of communication did not work. We used it to contact people in Wellington to let them know we got to the hut safely. If we didn't contact them, they would send out rescue services to find out if we are safe or not. To set up the radio, we had to set up a large amount of wire connected to the radio and attach the wire to a high tree to enable us to get service in such a remote place. After listening to all the other groups also using their mountain radios around Wellington, and the weather forecast for the next few days, we packed away the radio. It was now 6:00pm, so we needed to make ourselves some dinner. After dinner we set off for an early night as we all knew that there was a big day full of tramping ahead of us.

### **Day 2 - Totara Flats Hut to Mt Holdsworth Carpark**

The next morning we woke up at 7:00am to pack up all of our gear and to get ready to leave. Once we were all packed, it was 8:00am, so we played cards and had our breakfast. We began walking for the day at 9:00am and we tried our best to have as few breaks as we could so we can get back to the carpark in good time. We continued walking until we got to the big hill, the one we were hoping not to climb up from yesterday, around 11:00am. After looking at it for long enough we started climbing the hill. It didn't take that long to get up, however we took quite a few breaks. After getting to the top it was around 1:00pm and we were all exhausted. We took a moment to catch our breath then continued along the track. The River Ridge track took us to a small hut where we made our lunch. We all packed up again and continued our return journey. This part of the track was far more painful than the other parts of the trip as I kept rolling my ankle on tree roots. After going downhill with my ankle feeling like it's about to fall off with my foot, we finally made it to flat ground! We turned off the River Ridge Track and onto the Donnelly Flat Track which was quite easy and we got through it in less than an hour as we got there around 3:00pm. Now we were on the home straight! We continued walking for half an hour on the same track as we began our journey on the first day. We got to the carpark at 4:00pm with us almost dragging our gear to the cars because of our tiredness. In spite of this we were glad that we went as it was, for all of us, a great learning experience as we fully used compasses and maps to navigate our way to the hut and back. In the process we met new friends and bonded with our peers. In conclusion, this tramp has made me think more about the surrounding nature, and how we should protect it for future generations.

## Student Achievement

### ***The 2022 Wellington Model EU***

Year 12 Johnathon Bentley-Cribb received a Best Delegate Award at this Event

Vigorous debate. Unwilling collaboration. Unlikely coalitions. Jack Karatiana and I experienced and engaged in all of these aspects during Model European Union (EU); a simulation of the European Parliament between 27 European countries, held in the Legislative Chamber of the New Zealand Parliament in Wellington.

Over the two days of the conference, we were a part of a political party and represented those views in the decisions we made. We made friends with people from all over the country. We were able to amend clauses of documents known as articles. We would debate each amendment that someone proposed, representing the views of our political parties.

By the end of the conference, we were able to successfully pass the directive, which laid out what the future would look like for the EU in battling climate change. Jack and I represented opposite ends of the political spectrum, but through negotiation and compromise, we were able to reach an agreement and form a coalition of the two biggest parties of the European Parliament.

This was an amazing opportunity, and we expect to expand this opportunity further across the school. For any of you interested in taking up this opportunity in 2023, join debating and keep a keen eye on the notices.

Johnathon Bentley-Cribb - Year 12

## Student Leadership

This year we have continued with our Marist Model of leadership. This means that students choose one *pou* to be involved in for the year as a Year 13 student leader. They complete an application form to apply for a student leadership position. The application for student leadership is open with no set number. The following leadership roles include: the Head Boy, the Deputy Head Boys and the Head Boarder. Each of the five *pou* will be led and guided by a staff member. The five *pou/pillar's* include: *Kotahitanga*, *Manaakitanga*, *Nga Whare*, *Whanaungatanga* and *Whakapono*.

### **Kotahitanga**

Represents Unity. This *pou/pillar's* role is to lead the College in whole cultural school activities. They may include the College *haka*, the Anzac Day liturgy, Waitangi Day celebrations, etc.

### **Manaakitanga**

This *pou/pillars* role is to seek to honour the dignity of all in our school and wider community. This will include the student leaders 'to walk alongside' and support students across all the year levels.

### **Nga Whare**

This *pou/pillar's* role is to form the competitions among the four Houses. This will include the all-in athletics day, activities on St Patrick's Day and other sporting activities that occur throughout the year.

### **Whanaungatanga**

This *pou/pillar's* role is to act as the Year 9 mentor in each of the tutor groups. They will be allocated one Year 9 tutor group and work alongside them through the duration of the year.

### **Whakapono**

This *pou/pillars* role is to develop and form the faith development of the College. They will be directly involved in masses, liturgies and other special character aspects of the College.

In applying, students acknowledge that:

- They care about other people;
- They are prepared to put themselves out to help others;
- They are prepared to be a role model for students at Silverstream;
- They are committed to achieving good Weekly Notes, high attendance, and attend a weekly meeting.

How we as Leaders can model our Colleges values

**Faith:** We believe in a God who loves and cares for us. We believe in his son Jesus, His teachings both inspire and challenge us.

**Humility:** Honesty, accepting who I am, my gifts, my strengths and my weaknesses.

**Courage:** The courage to be yourself and to stand up for what is right and good. To do the right thing for the right reason.

**Unity:** Coming together in good times and tough times.

**Support:** Recognising and walking alongside others, particularly those in need.

In Term Four we also had several staff and junior students take up the opportunity to take the lead once the senior students began their external examinations. Due to this success, we will be establishing a Junior Leadership programme earlier next year. We would like to thank all our student leaders of 2022. Your humble service to the College made so many wonderful memories and meant that our Catholic faith was lived out in word and deed. We would also like to thank the staff who mentored these leaders. The senior leaders staff mentors were Jane Nolan, Kathryn Miles, Kevin Havell, Jane Hambidge, Reuben Pivac and Jonny Greaney. The junior leaders staff mentors were Katie Berriman, Maddy van Woerkom, Stephanie Arnott, John Paul Jaurigue, Tim Mannix, and Adrienne Heath. We would also like to thank the members of the National Marist Youth team who mentor, encourage and support our leaders and staff each year.

*"What a task it is to form a man. How difficult it is. How much patience is required. But is there anything greater?"*

Fr Jean-Claude Colin SM Founder of the Society of Mary

## Hauora Week

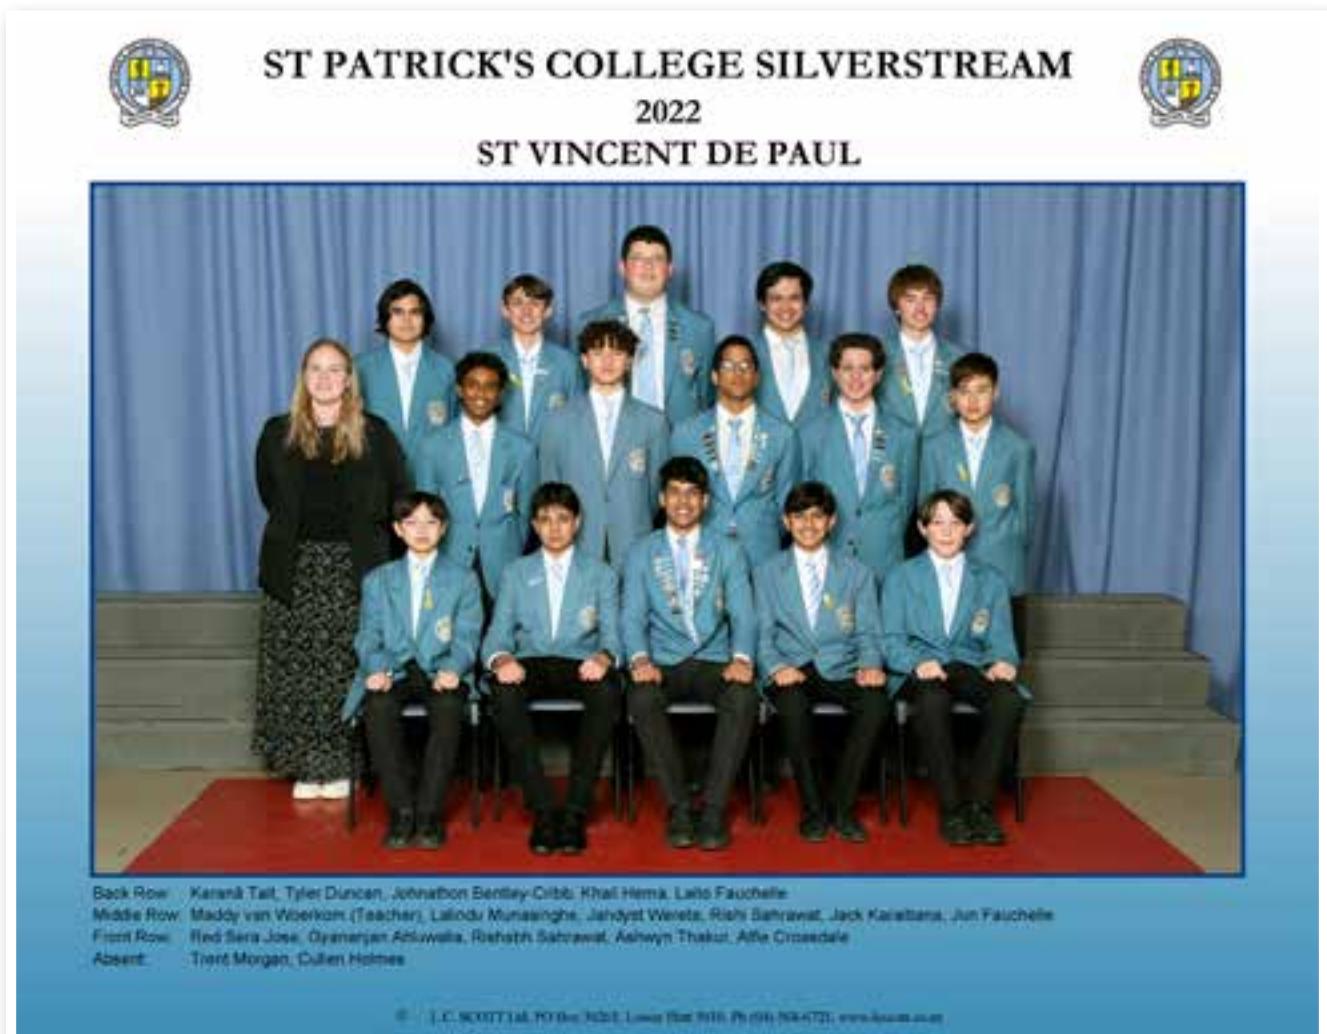

## St Vincent De Paul

The Young Vinnies group, a group dedicated to helping those in our community who are in need, gained momentum over this year.

In Term Two we collected for Pink Shirt Day with a school-wide casual clothes day. In Term Three, we would fundraise for the Saint Vincent de Paul through the running of the junior social. We also collected cans for the local Food Bank and collected further funds for the Saint Vincent de Paul with another casual clothes day in Term Three.

This year, we held the Young Vinnies Mass at Saint Patrick's Kilbirnie and seven of our young men were in attendance. The mass provided a space for reflection and an opportunity to socialise and network with Young Vinnies students from around the Wellington region.

With a relatively young cohort of students, we look forward to building this group up and extending our care and aid in the coming years.

# Department Reports

## English

A brief personal reflection. I started teaching in 1979 and I have taught at six schools – three in England and three here in Aotearoa/New Zealand. Looking back over those 43 years, I'm amazed at how teaching has changed so dramatically. I'll highlight two in particular:

### Technology

In my first few years, teachers would spend most of their non-teaching time preparing resources. We'd use a device called a banda machine, which was incredibly primitive! I wouldn't be surprised if Noah had one on the Ark! There were no such things as laptops, cell phones, photocopiers, or data projectors! Even as recently as the 1990's, when I was teaching at Mana College, there was only one video player for the whole school – you had to book it weeks in advance if you wanted to show a video to your class!

### Assessment

In my first 20 years of teaching, the main assessment for all Year 11 students was School Certificate. This was a three-hour exam held for every subject at the end of the year. They marked it out of 100—if you got 49% or less you failed, and you had to repeat the whole course the following year! There was no such thing as Internal Assessment.

However, there are some things in teaching which haven't changed:

Good teachers are good teachers—whichever decade they taught in. I have worked with some amazing teachers over the years and the common features of all have them have been:

- they're fair but firm
- they have a great sense of humour
- they build positive relationships with their students

It's been said that "boys learn teachers, not subjects" and that's a great summary of what makes a great teacher.

The other thing which hasn't changed is how blessed I feel to have been a teacher and HOD. It's certainly been a challenge but as Father Jean-Claude Colin once said: *"What a task it is to form a man; how difficult it is; how much patience is required; but is there anything greater?"*

As HOD I've had the huge privilege of leading an amazing department and working with so many awesome teachers. I thank you sincerely.

God bless

Simon Fordyce  
HOD English

## Māori

Tēnā tātou e te whānau!

It is with great pride our school was able to celebrate the establishment of its first student-led Māori advisory Council - *Te Rūnanga o Mawai Hakona*. The idea of this was proposed by Old Boys long before I was a student and it is nice to see their vision become a reality. The purpose of the Council is to have a platform that can represent the Māori students and offer advice to management and school staff.

One of our student member's is Arana whose Dad is Judge Damian Stone. He is the resident judge for the Tākitimu District of the Māori Land Court hearing cases in Hastings, Masterton and Levin (Aotea District of the Māori Land Court).

He was kind enough to meet with the boys and provide some advice around establishing goals and rules. We want Saint Patrick's Silverstream to be a place where everyone can be comfortable. Our mission is to better integrate Māori culture into the school in a way that it remains long after we leave.

In the future we want to be more involved in key events to help solidify our presence within the school. At this stage this is organising events around Te Wiki o Te Reo Māori 2023, identifying more opportunities for our Kapa Haka group to be involved in, getting the appropriate support to ensure our own haka is performed to the standard it deserves and lastly that our students know the words and lineage to our waiata. We know that everyone enjoys eating and having a laugh, so we are thinking of a couple of events that involved both of these.

It is important to us that our brothers feel comfortable to offer us ideas and suggestions and we would welcome these warmly. If you think you would like to be involved, please let one of the Team know.

Ngā mihi

Khail Hema (Year 12)

## Art & Design

At the beginning of Term 2, 2022 The Visual Art & Design Department at Stream welcomed our new design teacher, Mrs Michele Diamond to St. Pat's, bringing our strong creative teaching team to three, Ms Thapa - Visual Art, Photography (HOD), Mrs MacDonald - Design and Mrs Diamond - Design. It is a great place to be and there is awesome energy in our area of learning.

We have put a lot of effort into creating engaging, contemporary programmes that teach the students real-world skills in both Visual Art and/or Design that build confidence in our students. We have worked hard to improve IT, computers, and software across the department and are confident in being able to provide a strong creative teaching base for each ākonga who steps through our doors. Ours is a workshop and studio-based subject. It is always busy, and the generated ideas can be truly inspiring.

Back from Covid we have slowly returned to Art trips out of school. This year all Level 3 students across our department visited Massey Creative School of the Arts which was timed with the exhibition of top-level 3 folios in New Zealand. With a bit of luck, we will be back to our full rotation of trips in 2023 providing opportunities for students to see and experience Art & Design.

Going forward we want to be seen around the school with more exhibitions of student work and donations of Art and Design to be on permanent display at St. Pat's. We aim to develop more clubs that can drive student-led initiatives such as student publications and events to promote and display the talents of our students. These clubs will be an opportunity for juniors to take leadership roles and develop skills that will benefit them in their future learning. And as always, we will strive to foster creativity and bring out the best in every student.

### ART

Painting is such a satisfying but challenging subject. The senior Art students show resilience and commitment every year. They work hard and are surprised by what they can achieve. In 2022 Level 1 and 2 Art students visited the Robin White exhibition at Te Papa, the Biannual Portrait Awards at The National Portrait Gallery, and City Gallery.

### PHOTOGRAPHY

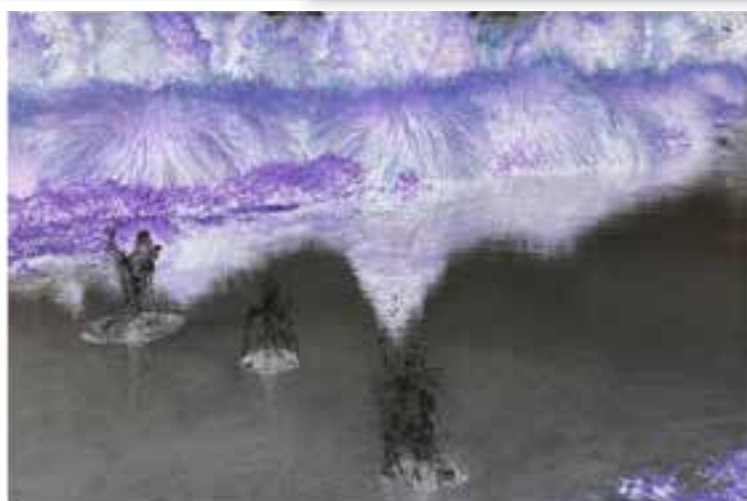

Senior photography starts at Level 2. Students join our department from all areas of the school. Photography is a subject that attracts students from throughout the school. It appeals to students who like technical things, computers, and creativity. This year we had a great turnout of beautiful folios.

### DESIGN

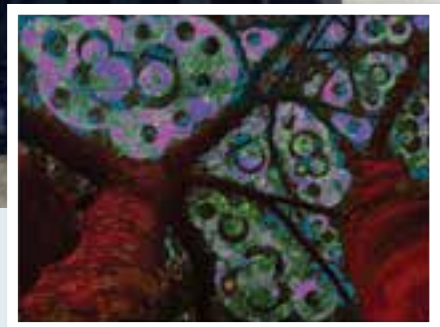

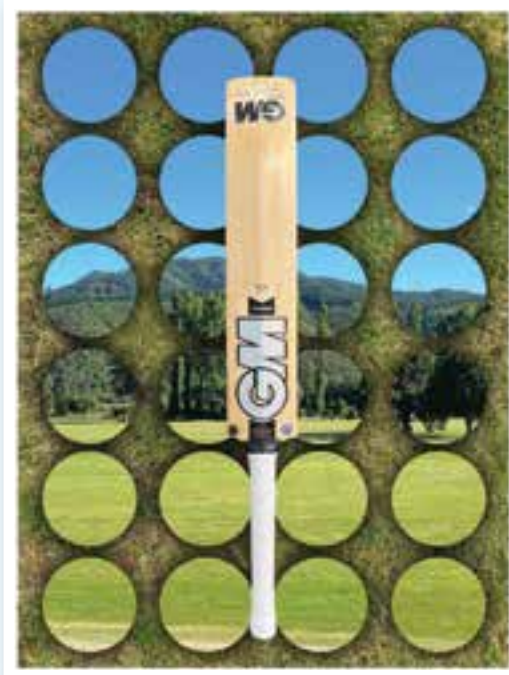

In 2022 Design has grown from strength to strength with strong portfolio submissions in Year 11. Our Year 11 programme combines photography work with design work giving students the skills to create and adapt their own unique imagery. Students take their own photographs on themes ranging from miniature cars to cricket, leading to strong individualized collections of work.

Year 12 & Year 13 students focus on developing their design skills further, creating more extensive design work in their chosen themes. Our senior design students create well-thought-out, creative design branding on their chosen topic using industry-standard software. The range of skills they learn in design prepares them for an eclectic mix of courses and careers.

## Physical Education Health, Food and Nutrition

### Year 9 PEW

This year has been magnificent. This is because of our wonderful teachers and our teamwork and encouragement from our classmates. I have done many activities this year and there were many highlights and favourites.

We played a game called Hauora survival as a class during the first term. This has been a fantastic experience because of how well we worked together and how we assisted one another even when we made errors. This put our communication skills and contributions to the team to the test. There were both physical and tactical components. Some activities we completed included transferring water from one location to another using a few pipelines and our crew members. Another was to build a shelter to protect against a variety of threats. We also used the pool for swimming lessons during the term. This was a crucial skill to master because we all loved swimming and found it enjoyable. We related each activity to an aspect of our Hauora.

In the second term the focus was on Tikanga and we did this through Maori games. For Maori games we looked at all the traditional games and we got to try them out, it was pretty fun. For Tikanga we focused on doing what was right whether that was in the classroom, in the gym, outside or in Food and Nutrition. This term was really enjoyable because we got to experience other people's culture through games and food.

In the third term we looked at activities from around the world and resilience. We took part in a range of games and activities that were from different places around the world. The aim was to look at what cultural, historical and environmental factors took place to create or guide the sport or activity. We looked into different mind sets and worked on our resilience by practising a skill we knew we weren't good at. Also, there were so many nice things that we created in Food and Nutrition. One of the classroom favourites was when we planned and made a potato dish. This inspired us to make more progress and we are looking forward to next year, cooking at school and at home.

Last, the fourth and final term, we have looked at barriers and enablers to games and sports we play every day. We have also just started making board games that cover 5 aspects of well-being. Tu Kua (give), Me Kori Tonu (be active), Me Ako Tonu (keep learning), Me Whakawhanaunga (connect), and Me Aro Tonu (take notice). This has been fun so far and everyone is looking forward to continuing with it.

We all did great work throughout the whole year with our Hauora. First, Taha Wairua. This was active because we spiritually helped and guided each other in different ways. Next, Taha Hinengaro. We emotionally kept going even though it was a hard time in PE sometimes. Taha Tinana. This was the best because we showed active participation in our sports and our activity. And then last, Taha Whanau. Our Year 9 classes have worked together to improve our relationships with our classmates and close friends. We think this year we did well and look forward to Year 10 PEW.

Jun Fauchelle and Joshua Lamb.

## Year 10 Food and Nutrition

This year in Food and Nutrition we started off with learning common terminology and food literacy which I found very useful because it made me understand and connect more with what I was doing in class. This year I really enjoyed trying new things and learning new cooking skills which will help me in the future because I will know the right foods that my body needs to remain healthy grow into a strong adult. The cooking skills that I have learnt I will surely remember and use in my adult years to create healthy and exciting meals.

– Harry Mort

## Year 11 Food and Nutrition

This year was a very special year as the class was the only class in New Zealand to be piloting the Food and Nutrition standards under the new banner of Health Studies. The class of 23 students embraced the new way of teaching and learning and achieved some great results in the two internals and two external assessments. Feedback from some students was positive, such as “I found the assessments easy to write about as our learning was fun and interesting and totally relevant to me as a Year 11 student.” “I did not struggle in any assessments” “I was proud to lead the way for New Zealand students in Food and Nutrition”. As their teacher I was very proud of the way the students embraced the new learning style and topics. They never felt disadvantaged being the first students to gain their credits under the new NZQA system. Yes, they still did their beloved practical once a week, but even that had a different twist with students taking more ownership of what they food they prepared and cooked and justified their food choice and influence. It was amazing to see the positive influence of Mana ōrite mō te mātauranga Māori in the course with more students reaching their potential because of this.

## Year 12 Food and Nutrition

With a combined course with a few Level 3 students, it was fun to start the year with a look at sustainability and the outdoors. The class planned a trip with the PED200 Students and we all went on a full day cycle tour along the Hutt Cycle Trail and over the Rimutaka Incline. The focus was on the sustainable packaging and food that would nourish and fill the students but be sustainable. There was plenty of learning to be had, and there were only plastic containers to be washed and no rubbish-generated after all the students on the trip were fed morning tea, lunch and afternoon tea. One use water bottles were not encouraged as large containers of water were carried in the school van, as we prepared all food in the classroom beforehand. There was no packaging on the day. We dehydrated food, made relish for the pizzas we had for lunch and had bags of snacks available for that last final bike climb. This was only one standard completed during

a busy learning, but totally academic year for Level 2 Food and Nutrition students.

**Level 2 Hospitality** was my favourite course this year as it helped me learn through experience and allowed me to socialise and connect with my fellow students, letting us build kinship within the classroom. Here you can learn how to present dishes in a stylish and neat manner, as well as learn how to cook by baking, microwaving, poaching, and grilling. They may also teach you how to handle and maintain knives as well as how to perform many fruit and vegetable cuts. One of the many highlights for me was our Choux' Pastries (pronounced “shoe”) a French wedding cake which we gave to the staff for morning tea. We know it as a croquembouche, which comprises many pastries stacked around a cone and bound with threads of caramel.

Ethan Locsin  
Credit to Nicola Potts

Level 3 Hospitality in 2022 was a handful of students who enjoyed their learning through food, but were not the most regular students in class.

My time in St Pat's was terrific, my favourite subjects are Music, Math RST, Hospitality and Learning Support. I enjoy cooking in Hospitality with Mrs Potts, and I play piano in Music with Mr Bennett. I love doing RST with Mr Havell about the Holy Spirit and apostles. My favourite thing at St Pat's is cooking food for the traditional “rugby” games. St Pat's is a fun and a good-looking school and I'm going to miss everyone that I met including my Tutor Teacher Dr Cartwright. I'll make my Grandad proud of me I'm going to do amazing things for my future.

John Chapman 12 LC

## Year 10 Physical Education and Wellbeing

Students covered a range of topics in their learning this year. In Health, Students started the year with an Inquiry into the effects of recreational drugs on the wellbeing of individuals and communities. Students moved on to a two-term unit around relationship and sexuality education. Finally, classes looked into Mental health with a lens to strategies for managing mental health and breaking down masculine stereotypes about mental health.

In Physical Education, students took up the challenge to run their own sports tournament in classes where they were to organise all the aspects and responsibilities associated with a successful sports competition. They also planned and carried out their own fitness program, and lead their own PE classes. A highlight of the year was in the final term when we learned about sport science principles and applied them to performance in the simple game of force back. It initially surprised students to see physics principles in their PE lessons but quickly picked up on how to turn these into strategies they could apply to their own practical performance.

## PED100

Silverstream's Level 1 cohort was one of only 6 from across New Zealand to be trialling the new NCEA achievement standards in 2022.

The year began with students exploring the concept of kotahitanga, and the strategies which groups can utilise to promote this through movement. We learned about different ways of developing kotahitanga through small games and challenges, before we embarked on our Rippa rugby tournament where we set out to emulate a professional sports league as closely as possible. Students went through a combine and draft process, joined various franchises under the guidance of CEOs, and were appointed a role such as media manager, stadium manager, match official and head coach. This provided the perfect opportunity for us to implement two strategies we had been learning about in a team situation where we needed to work together to succeed, but also to cooperate with rival franchises to make the tournament function smoothly.

In Term 2, we started exploring the concept of Ki O Rahi – a modern interpretation of a traditional Māori activity. We learnt about the Pūrakau or Rahi, the tikanga that goes with participation, and how ihi, wehi and wana are expressed through playing. We also looked to hone our performance of the skills of the game through the application of biophysical principles.

Next, we moved on to volleyball, and learned about self assessment and video commentary for our own performance. We also used this as an opportunity to learn a bit about the human body, anatomy and exercise physiology involved in bodily movement and performance.

We ended the year with a trip exploring some remarkable parks of our local area. We tramped from Birchville up to Cannon's Point trig, and down to Birchville Dam. As well as amazing sights, the tramp was quite a challenge, a different fitness.

It was quite a challenge for both staff and students to adjust to the new assessment framework, but the opportunity to trial and learn from this first pilot will set us all up for success in future years—especially those moving into NCEA level 2 courses next year.

Mr Leggett

## PED200

Hello Stream, my name is Oscar and in 2022 I was a part of Mr Tagaloa PED200 class. I chose this class because I enjoy playing sports and learning about the little things you need to know. We don't just play sports every lesson but we learn about the importance of physical activity, principles of training and working out and we also go on trips. This year they have assessed us on 4 topics throughout the year. To start the PED year off we went on "the big coast", this is a massive bike ride that the class does from school to Featherston on the day. This bike ride was a total of 27 kms and took over the whole day. We also learnt about the role and significance of physical activity. With this assessment we would learn about the significance of physical activity but we would also have time to connect with the Silverstream primary school students across the road and explain to them the importance of it. Then would play a little game with them. This was fun because it was a chance to connect with the young and share our passion for physical activity in planned activities that we felt were beneficial for young kids. Coming up to the end of the year we would then make our own gym workout plan and would come up with a goal. We would have 2 lessons a week with 8 weeks of working out in the gym. Now for the last assessment we are doing "perform a physical activity", this one is probably the best one because all you have to do is play a sport. For our sport we're doing turbo touch. We would learn about little techniques and get assessed on our performance. I recommend this class especially if you're overwhelmed with hard subjects and would like just that one period to have a relaxed class but a subject that provides loads of fun and key learnings along the way.

Oscar Wrigley

## Level 2 Academic Athletic Development

Level 2 Academic Athletic Development 2022 was a year full of different experiences and learning, giving students the chance to explore many new opportunities. We took a deep dive into sports and worked on how we, as student athletes, could work on improving our athletic ability so that we could use it effectively in our personal pursuits. We started the year learning about sports nutrition. This was helpful as it built a foundation for our cooking, preparing and planning skills. As young athletes this gave us valuable skills which we could then use as we move on in life, such as how you could plan a week of meals. Our next topic was Clear for Action. In this topic we took on the role of a student coach, exploring the different movements of badminton and working on how we could use them to enhance the performance of an athlete. We broke this standard into two parts: firstly was a badminton tournament where we could challenge others and compete to be the best in the class. Secondly we wrote a report on the sport of badminton and explained certain biophysical principles that are used to improve performance. Our next topic was All Aboard the Gain Train. This standard left us with in-class learning sessions where we created a training programme and focused on two methods of training and two principles of training, which would help us in achieving some goals we set. After we created the training programme we then had the chance to go out of the classroom and complete our training programme. For example, one session I completed was an upper body workout, this was to increase my bench press one rep max, which would then help with my physicality in football. Last, we moved into our final topic of the year, Overseas Mega Leagues. In this standard we looked at the significance of overseas mega leagues such as the NBA or EPL. We learnt why they were important for ourselves, others, and the society. This standard was interesting as overseas mega leagues influence a lot of our lives, even though we don't get the chance to frequently be involved with them. To sum up my Level 2 Academic Athletic Development 2022 it was a very helpful, interesting, and fun subject. It has shown me the many pathways that it can open up for the future and I would definitely recommend choosing it as a subject.

Ryan Watson

## PED300

To start the year, we looked into analyzing the issues in safety management for outdoor activity and to devise safety management strategies. As a class we researched and explored possible risks of physical activity and what we could do to minimize these risks we had found. We looked in depth at all the risks of paintball. Then we attended a practical day of 2 games of paintball so we could implement the strategies we, along with the safety brochure, had come up with.

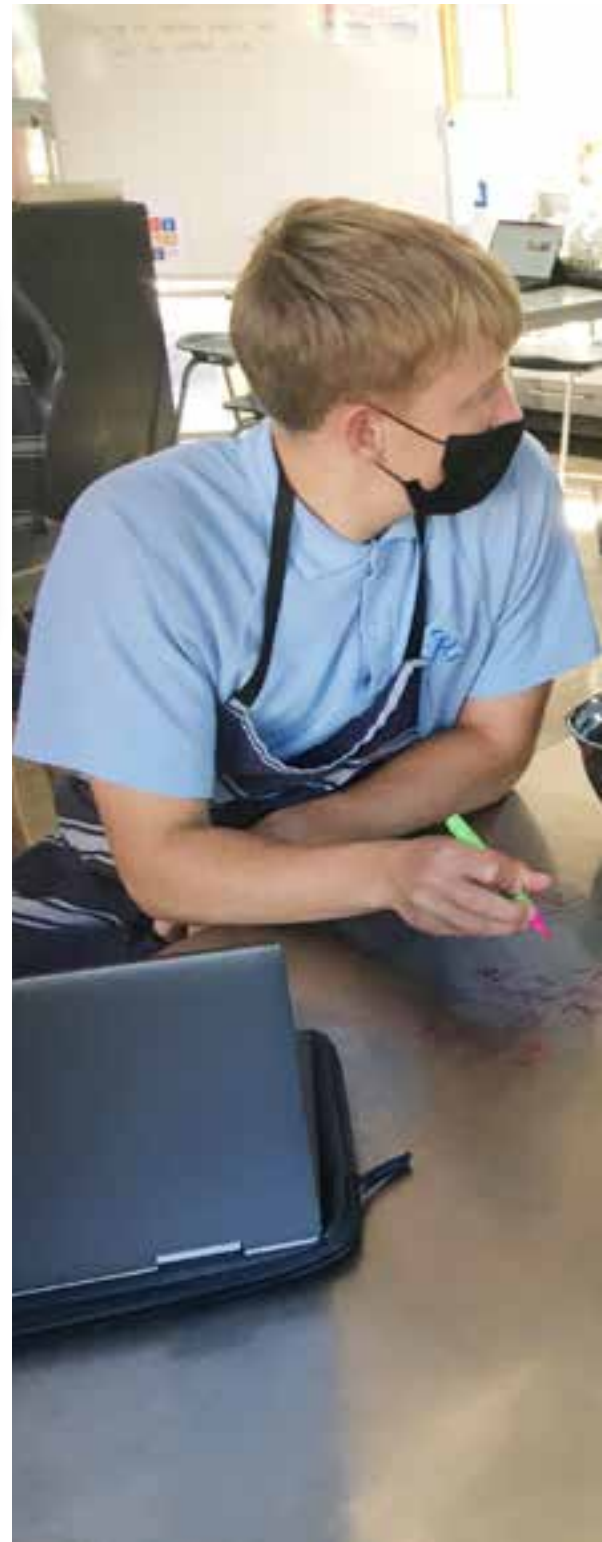

In Term 2, as winter sports started, we looked into devising strategies for a physical activity outcome that we wanted to achieve in our own chosen sports. We all individually chose a skill that we wanted to improve and did so by analyzing professional athletes and comparing ours to theirs, as well as carrying out many practical lessons in a 6 week training program we created for ourselves. By focusing on a specific skill that directly correlates with our chosen sport it lead us well into our next internal assessment. Which was to create a coaches rubric and be graded by coaches on certain skill areas constantly over a 4 game period. As a class we were thankful to all of our coaches who graded us on these skills and to our managers, friends, and others who would video our games so that we could have evidence to show our teachers, determining our grade of achievement for this standard where most of us got Merit or Excellence.

To finish the year, we examined contemporary leadership principles applied in physical activity. We did this through in class research and getting information about what the different leadership styles were. After we had gained knowledge about the different styles, we split into pairs and came up with what style or number of styles we would use. In pairs we planned out a practical lesson for the rest of class to do and took leadership of the whole lesson. Then, to complete the year, we looked at the evaluation of physical activity from the age of 0 to leaving high school. From this we saw the importance of continuing to be active and came up with strategies we could use to remain active and look after our health after leaving high school.

A strong number of our class plan to continue to play sport for local clubs or university teams.

Sam Start and Mr Stewart

### AAD300

This year's group in the Academic Athletic Development programme was certainly the crème de la crème in terms of Stream's top student-athletes. This programme allowed us to not only hone our skills in our selected sports but also allowed us to have a deeper understanding of sports performance and physical activity.

We started the year analysing a current physical activity event, trend, or issue and its impact on New Zealand society. This led to the class investigating issues from a range of topics such as money in sport, commodification, and other issues affecting NZ sports.

As the winter sports season rolled around, we all picked a specific skill which we focused on improving for our chosen sports. We did a biophysical analysis on how to create, and analyse the effectiveness of a performance improvement programme. This moved perfectly into our next topic where we were to show top quality performance in our chosen sports. Our goal was to get Excellence so we could show improvement in our programme and skills. I speak on behalf of the class, and thank all the coaches, managers, and others involved, who helped collect evidence of us playing sports outside of school hours, so our teachers could easily determine our grades in this standard.

To end our great year in this programme, the class reflected on how physical activity had changed from when we started getting involved. We looked toward the future and considered what strategies we would use to continue taking part in either sports we enjoy, or physical activity.

Asking the class about their future, we have a few members who are going to continue doing sports after this year. We have Bronson, and Tomasi, who've gone to America to pursue basketball as a career. Senio Sanele made the Hurricanes wider squad U18s, Jacob Denyer and Connor Tuifao on a potential overseas scholarship to Japan to pursue further field studies in sport science and play rugby. Dominic Hazeldine - Kaczorowski playing professional golf, Matthew Cuff pursuing studies in Auckland AUT awarded with a scholarship and Emmanuel Solomona moving into Victoria University to study sport and recreation or his option to head to Otago University to use up a scholarship offered to him.

AAD300 has been a great pathway subject that is content focused on a quality theory that provides transferable knowledge to a wide industry. I fully recommend this subject to students moving into careers of high honours and believe it can open up many opportunities ahead.

Neihana Waiariki

## Science

### Trips and Events

We have made a significant effort to find engaging and enjoyable activities for our Science students. This is to meet the Science Department Vision:

### Visiting Te Papa Tongarewa

Both the Y9 and Y10 students all attended Te Papa this year as we looked to encourage further engagement in resources that are specifically tailored for students in our local environment. The students looked to complete the treasure hunt to answer the big questions posed to them.

### Y11 Human Impact on the Stream Ecosystems in Upper Hutt Catchment

Based on the renewed interest in how humans have changed and our own resurrected stream Māwaihākona, we travelled to Tunnel Gully Pākuratahi Catchment to look at the original biodiversity of our streams. The students collected data over two days to compare how we have impacted on our streams.

## Student Mentoring

We began getting students involved in mentoring and supporting their peers. It required a bit of effort to create opportunities for students to have the confidence to do this in class. It is outstanding to see the students being really helpful and deciding to help their classmates reach their own level of personal excellence.

## Tolosa Scholarship

These students gained a wonderful opportunity to attend the Massey Campus in Palmerston North for Tolosa Pacific STEAM Challenge at Amanaki STEM Academy. We designed this to promote Pasifika young people to develop the skills required in this expanding industry. The students were: Saimoni Fifita, Adrian Kuaoni, Joshua Cohen and Pauliasi Fifita.

## Biology Level 2 Tongariro Trip with Geography

Our annual trip to study the biodiversity changes that happen as a result of the changes in altitude was back on this year. We once again joined with Level 2 Geography and combined to offer the students this learning opportunity and also looked at the changes to trout populations, because of processing changes to their environment.

## Brain Bee Challenge

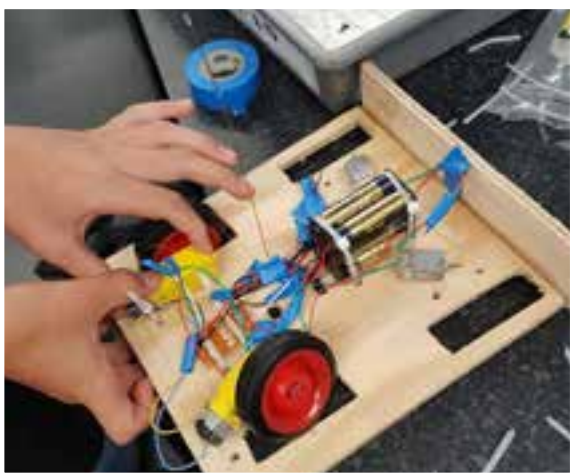

The following two students, Laito Fauchelle and Peter Cavill based on their results in a national competition, gained the opportunity to travel to Auckland University to attend the challenge alongside other students from across New Zealand.

Laito and Peter in the lecture theatre during the NZ Brain Bee Challenge.

## STEM challenge

We entered a team in the STEM challenge after the students submitted a proposal for their team. The students were: Caleb Malskaitis, Callum Byrne, Xavier GillumJ, Red Sera Jose. Considering they were a Y9 up against Y10 teams their result of second place was superb. This team has committed to winning this competition next year.

## NZ Biology Olympiad Programme (NZBOP)

This was a first for Silverstream with one student applying for this programme and gaining entry. It required him to complete the tutorial programme with the completion of a series of MasteringBiology assignments, compulsory question sets offered through Education Perfect. The award gained here shows the significant strength that Johnny Bentley-Cribb has in this area.

## Student Work Examples

PHY200 created posters and comic books for some of their assessments this year

## Technology

# ATHLETICS

The Athletics season in 2022 never really happened, so it's more about getting ready for 2023 and the 100th McEvedy.

## McEvedy 99th

Well, this would have been in Term One, where 2 dates were set aside because of the cancelling of the 2021 event. Unfortunately, both dates were not considered, which was frustrating for the teams and coaches. The proposal then was to hold McEvedy in the second week of September. It wasn't ideal for every reason but the Y13 athletes who wanted their final McEvedy gave it the thumbs up, so it happened. One week of preparation.

Highlights—well it was impressive to watch Oliver Krijnen win the Senior 100 and 200, considering 10 days prior he was on the wing for the 1st XV. His times were impressive for the start of the season. The Middle Distance duo of Josh Jordan and Max Poland were dominant in the 3000m, and in the Field events we showed real ability, another surprise considering again—one day at Newtown Park.

Lowlights—the number of athletes who pulled the pin the night before or on the day. Subsequently, the big lowlight - our 3rd placing which had us watching Rongotai rather than even considering winning the Shield.

## Regional Athletics

Usually a flat event after McEvedy, this was even flatter as schools were into School Exams. Thus, a good number of events had around 4 competitors, even if they were pretty able athletes. The sprints were competitive however, which was odd considering the timing. In the throws we excelled, and our performances were worthy as well. It was great to see the Javelin back as our premier Field event, Stream boys taking 1st in each grade, plus 2nd in two grades as well. The 4 x 100 Intermediate team taking a great win in the relay finished the day well.

## Neville Shield

The competition at Newtown Park was intense, but as brother schools we were also supportive of good performances. On the day Town was just too good, with their talent at Year 9 taking out the Cup for them.

The breakdown of points had the following.

**Stream Year 9 = 41pts Town Y9 = 94.5**

It is a challenge for our boys, a good number having limited background or preparation because of the difficulty in getting access to the all-weather surface and the lack of time available to work with the boys.

**Stream Year 10 = 81.5pts Town Y10 = 56pts**

The preparation from our Y10 boys who had experience—even if it was one year—made a huge difference. Our Year 10 boys held the ship together and did so with some outstanding performances.

We can take heart from the day, and Year 9 is up for the challenge. Our challenge is to work on those areas that continue to frustrate us because of facilities being non-existent which are Hurdles and a long/triple jump pit.

**Final points Stream = 122.5, Town = 150.5**

## Athletics Nationals 2022

The Nationals in Inglewood were a great success, in terms of performance and attitude in what were extremely challenging conditions. The rain arrived at the start of competition on Friday lunchtime and stayed with the event until early Sunday morning, when finally the blue sky emerged. For many sports weather doesn't matter so much, for Athletics it makes a huge difference, so then it becomes a huge challenge for the competitors to excel. In 2022 we did that.

Gold Medal	Keagan Sharkey Jun Javelin 45.56m
Silver Medal	Samasoni Hewitt Sen High Jump 1.90m
Silver Medal	Alex Hewitt Sen Hammer 61.12m PB
Silver Medal	3 Man Senior Road Race Team Josh Jordan, Max Poland, Oliver Heffernan
4th Place	Blaine Knapman Sen Javelin 50.09m PB
4th Place	Ryan Tinney Jun Javelin 35.11m
4th Place	Yarran Groeneweg Jun High Jump 1.80m PB
5th Place	Oliver Krijnen Sen 100m 11.20secs
5th Place	Jack Stowers Jun Shot 12.47m PB
5th Place	Josh Bryant Jun Triple Jump 12.10m PB
5th Place	Josh Jordan Sen 6K Road Race 18min 47 sec
5th Place	Jun 4 x 100 team (Groeneweg, Bryant, Michael Lopez, Tinney) 47.82secs
6th Place	Max Poland Sen Steeples 6min 35.46 secs PB
7th Place	Alex Hewitt Sen Shot 13.53m
8th Place	MacLean Forbes Sen Javelin 44.28m
8th Place	Sen 4 x 100 team (Fionn Shannon, Liam Dunlop-Brown, Zack Ziogas, Alex Hewitt) 47.07 secs
8th Place	Callum Wos Jun 4K Road Race 13min 5 secs
8th Place	Max Poland Sen 6K Road Race 19min 3 secs
10th Place	Callum Wos Jun 3000m 9min 29.34sec PB

Outstanding other performances were Josh Jordan Sen 3000m 8min 54.25 secs and Max Poland in the same race 9min 2.8 secs – both strong PB's.

### NZ Team

Alex Hewitt made the NZ Team, based on his superb throwing in the Hammer. This is recognition for athletes who have reached a standard that indicates a pathway forward in the sport of Athletics.

Outstanding team management and coaching from Alan and Kieley Taylor, Fr John Walls, Aitken Stowers, Kevin Havell, Hugh Steel.

# KARTING

On 26 June 2022 Kartsport Wellington held Part 1 of the National Sprint Championships. Over 150 competitors from around New Zealand arrived to compete across 5 Junior categories.

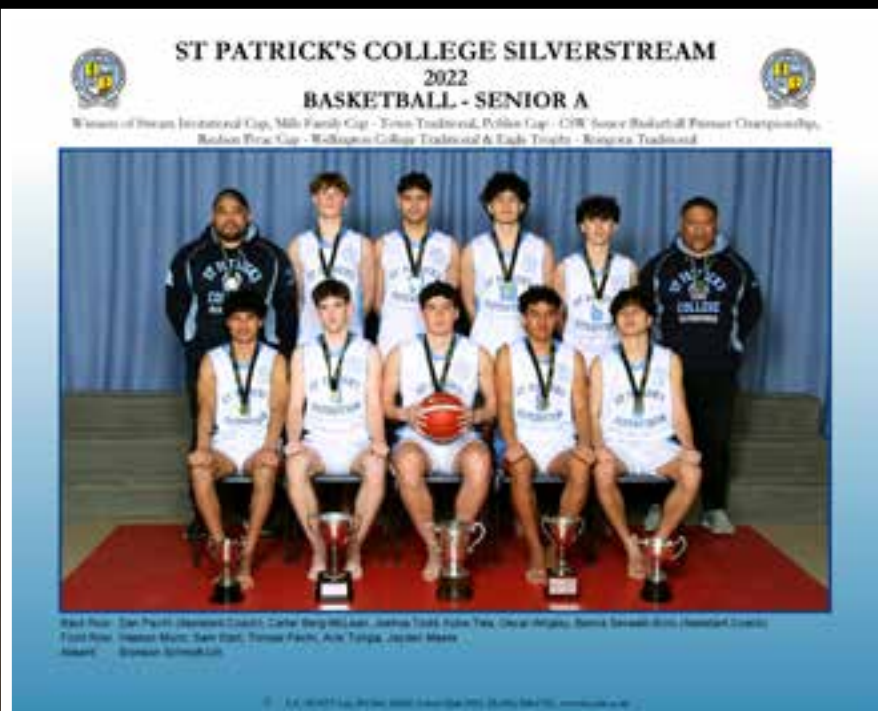

Daniel Pye, a local Kartsport Wellington competitor, raced hard all weekend, against a full field of fast and talented drivers from throughout New Zealand, to come away with 3rd in the 125cc Junior Rotax Max class. Daniel would like to thank: Shane and Ryan Wood for their support; Dane Harte and Brucie for driver training; Matt Kinsman for the rocket ship engine, and Tim Sillay for engineering the kart on the day.

## BASKETBALL

## Senior A

It's been an amazing year for the St Pat's Silverstream Senior A Basketball team in 2022! They were undefeated in the College Sport Wellington Premier competition and won the Pohlen Trophy in the Grand Final for the first time in the College's history. This remarkable feat against a talented Wellington College side was the icing on the cake for a season that also included Traditional wins against Wellington College, St Patrick's College Wellington and Rongotai College.

The Senior A Basketball team also competed in the Senior Regional qualifying tournament in August, finishing 2nd overall after a nail biting 1 point loss to Palmerston North Boys High School in the Final. They went on to compete at the Senior Secondary School Nationals in October, finishing 14th out of 24 schools nationwide.

We acknowledge Carter Berg-McLean, Sam Start and Hassan Munir for earning their Stream Traditional Basketball Caps in 2022. We also acknowledge Tomasi Pavihi, Jayden Maere, Akei Tongia, and Carter Berg-McLean for earning their Stream Basketball Pocket, which is a significant achievement and recognises the 50 games for the Senior A team.

We also recognise and acknowledge the amazing coaching staff, management, and leadership team – led by Head Coach Terry Stallworth and supported by the Assistant Coaches Dan Pavihi and Benna Seveali'i-Siolo, team captain Tomasi Pavihi, and vice captains Sam Start and Carter Berg-McLean, and managers Alex McLean and Choyce Maere.

## Player Profiles

### **Kobe Tala**

His calm nature was key at various points of the season, particularly with his under pressure 3-pointers swishing Silverstream into leads.

### **Oscar Wrigley**

His shooting confidence grew through the season and there were times where he could score at will with his slick drives to the basket. His shooting confidence grew through the season and as another Year 12 will be a key player for 2023.

### **Joshua Todd**

Joshua is a real team man. He is a quiet, calm soul who always puts others before himself. Joshua provided some real strength and rebounding when required and could out muscle his opposition.

### **Hassan Munir**

He started most games as a 2-guard and teams quickly learned of his tenacious defence. His speed and agility put Wellington College under all sorts of pressure in the College Sport Final. As another Year 12, he will be looking to excel in 2023.

### **Ariki Tongia**

Ariki's third season in the Senior A was limited by injury, however he finished the season strongly. His speed and agility enabled him to cover many positions on the court. Ariki earned his 50 game pocket at the National Tournament which is a significant achievement.

### **Jayden Maere**

Jayden completed his third season for the Senior A with a Traditional Cap and a 50 game pocket to go along with the Championship win. His slick handles and clutch free throws were key elements in the overall success of the team.

### **Bronson Schmidt-Uili**

Bronson's great season was capped off with a College Sport nomination, selection in the NZ men's U17 team, along with his scholarship to the prestigious Oak Hill Academy in the United States.

### **Carter Berg-McLean**

Carter started most games for the Senior A as a Year 12. His strength and basketball IQ made him a dominant pointguard. Carter had the ability to beat his defender easily and make a floater in the paint at will. He also earned both his Traditional Caps and 50 game pocket in the 2022 season.

### **Tomasi Pavihi**

Tomasi showed strong leadership as he captained the Senior A team in 2022. His energy and enthusiasm will be missed as the Year 13 moves to the United States, to take up a position at St Mary's Ryken in Washington.

### **Sam Start**

Sam joined Silverstream at the start of 2022 from St John's Hastings. He quickly became an integral part of the team and won the Best Team Man award at the recent prize giving. Sam was also awarded a Traditional cap for 4 traditional starts this year.

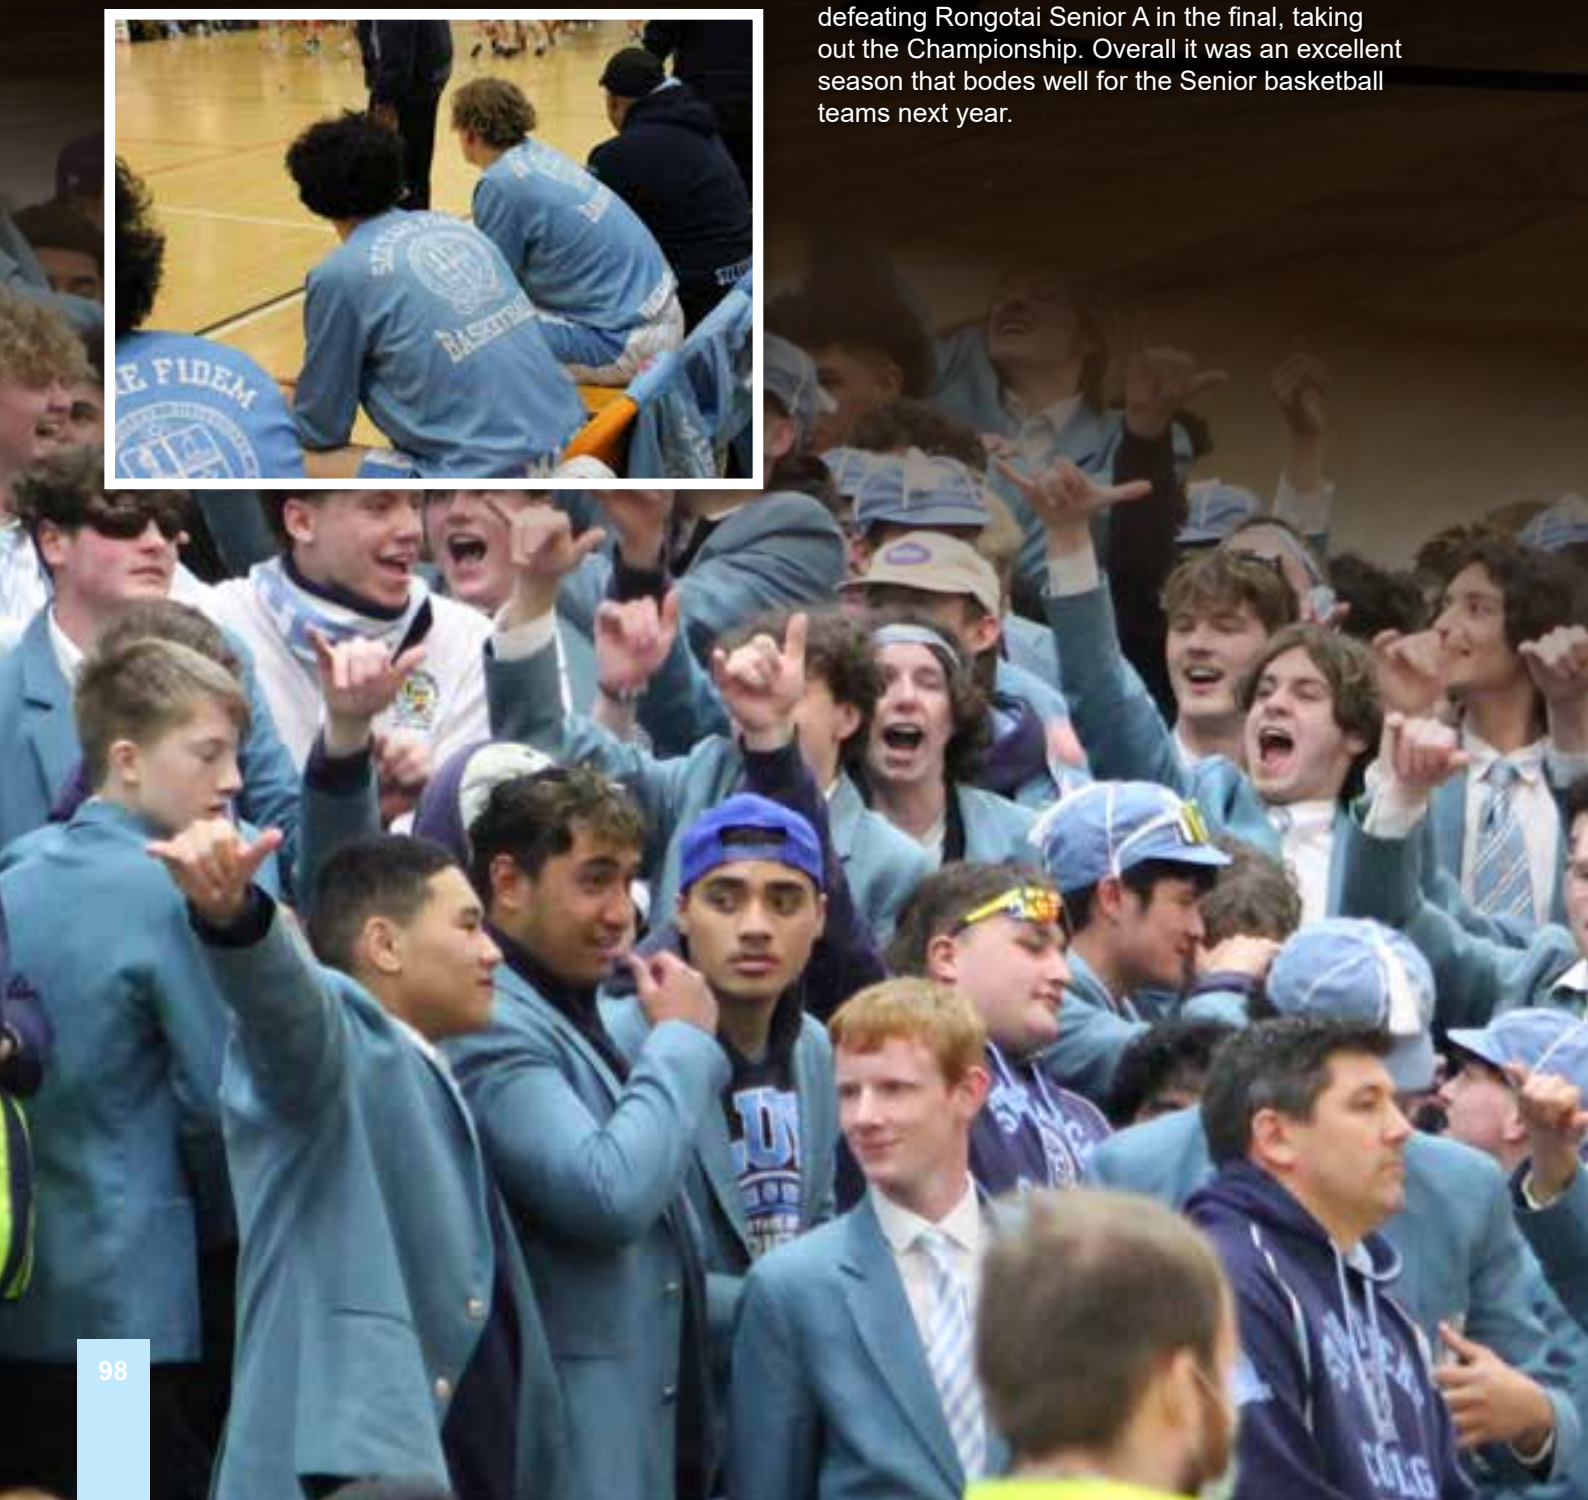

## Senior B

The Senior B team had a great start to the pre-season by finishing second to the Senior A team at the Easter Invitational Tournament, beating several Premiership-bound teams along the way. A team stacked with talent, it could easily have held its own in the College premiership division, but with this not being possible, it qualified for Division 1.

Some early season coaching changes led to Julius Korent and his son (and old boy) Pip taking the team reins, providing strong leadership and mentorship to the boys throughout the season, which was greatly appreciated.

The team was undefeated through the regular season. It was made to fight hard against an improved Onslow Senior A in the semi-final, before defeating Rongotai Senior A in the final, taking out the Championship. Overall it was an excellent season that bodes well for the Senior basketball teams next year.

## Senior C

### Back-to-back Championships for St Patrick's Silverstream College Senior C for 2022

The season for the St Patrick's Silverstream College Senior C Basketball team has been a long journey travelled for our back-to-back championship. The final against Porirua College, after the first quarter we were neck and neck with 19 (Porirua) and 20 points to us. At half time we were down 37 – 31. Final Score was 75 – 71 to us. I have really enjoyed supporting Pete and the boys this year.

Peter Thompson Senior C Basketball Coach.

## Senior D

It was a tough season for our Senior D team this year. If there was an award for displaying team spirit, then this was the team to show that.

Every game showed improvement and it was amazing to see individual players grow in confidence and go from strength to strength each game. The team showed the Stream values and the support and encouragement that they showed each other was awesome.

A huge thank you to Devonte for being a great coach and committing so fully to the team.

# Basketball

## Junior A

An incredible season for our Junior A's. We had a team of 10, then 8, then 9 for most of the season. 3-year 9s and 6-year 10s. We had the dream team. Head coach Terry Stallworth with assistant coach Benna, Manager Alo Ioane and co-manager Tash Thompson and our Co-captains KC and Arana...the Dream Team.

Winning the Wellington Prem Junior Championship against Wellington College and for many this will be a night that stays with them. A night where the bleachers were full, the students and supporters rallied around them and the noise was loud enough to be heard from outside.

First year since before Covid where we could take part in the NZ Regional Tournament held in New Plymouth. We went up with some expectations but also wanted to have some fun. 4 nights away staying in our comfortable whare, where we prepared and rested through 6 games. Played our semi-finals vs Palmerston Boys High school winning 87 – 41 and winning our finals against Napier Boys High school, a team we hadn't faced before. We won 70 – 55 and made Stream history bringing home this title.

This was a special team where parents were 100% behind us all the way. Thank you for your support by helping your young ones be committed to the team and to our Junior A boys. 2022 what an absolute season, you worked hard, achieved a perfect season & grew both as players & young men.

Alo & Tash.

## Junior B

The Junior B season started like all other years, players with big hearts and a lot of energy.

We ended the season in 7th place out of 10 teams. For the only Junior B team in the grade we are all proud of our effort and season.

The trophy earners for the season

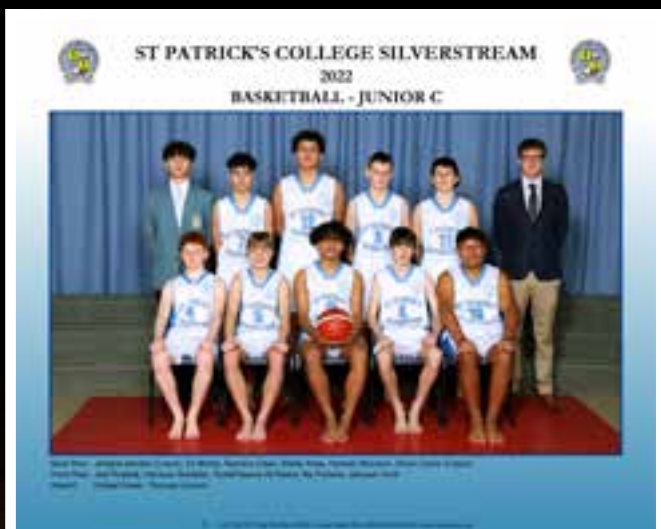

- Most Valuable Player - Josh Bryant was the MVP for the Junior B team in 2022. He carried the offensive workload throughout the season; he brought energy going forward and positivity the whole season. Josh was a shy player last year in the Junior B's so it was great to see him progress into the machine that he was this year.
- Best Team Man - Andre Woods-Martin was the Junior B's Best Team Man for 2022. Andre was a workhorse for defence. He would battle for the ball on every possession. The team definitely noticed his absence and the workload he carried when we played without him for one game during the season.

Three players were fortunate enough to represent the school and support the Junior A's up at regionals. Elijah, Andre and Josh travelled to New Plymouth and played in the tournament which saw the team pull through with the win. Hutt Valley Representative players. The team had a lot of talent which was recognised by representative teams. Josh, Andre and Lucas were in the Hutt Valley Under 15 B team. They selected Jaxon for the Hutt Valley Under 13 A team.

I would also like to say thank you to Coach Tyler and Kirsty our Manager.

## Junior C

The Junior C Basketball team had a strong start, winning all their grading games and qualifying for Division 2.

The season's highlight was a competitive rivalry with the Wellington College Junior D team. During the first meeting, the Cs were 20 points down at halftime and had to claw their way back to win by one at the end of overtime. For the final game, the WC Ds proved the previous game had been stolen, and the St Pats C showed how much they had developed over the season with a decisive win.

## Junior D

The Junior D team were a group of boys with a range of basketball skills from beginner to intermediate, however they always showed up to play each game with courage and determination.

The Junior D team played in Division 2, which also had our Junior C team along with other Junior A teams from the Wellington Region.

We had a couple of early wins in the season, but then the real competition came, and we suffered a few losses. However, we ended our season on a win against Taita, putting us 7th in the grade.

While there was some tough competition, the boys came together and worked hard over the season to develop their basketball skills.

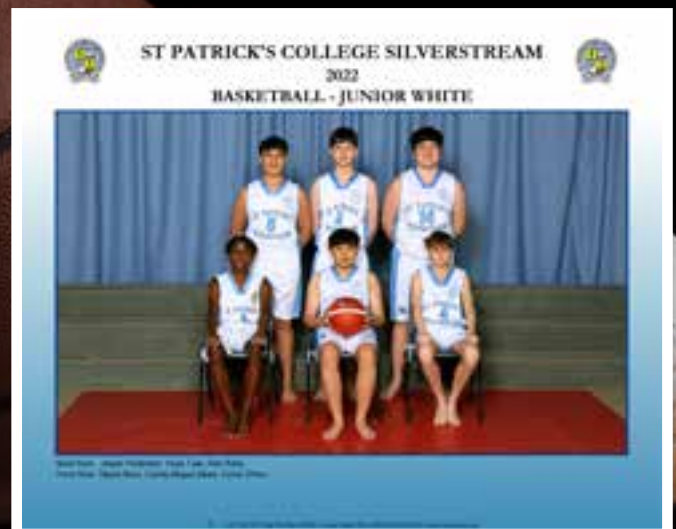

### Junior Blue

For a lot of us this was our first year playing basketball which I think everyone enjoyed.

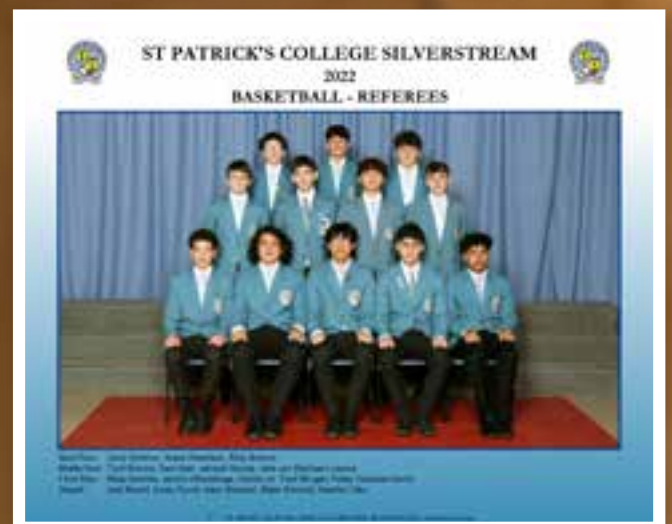

Our season ended in another game against Stream White in a playoff for 7th and 8th. Unfortunately, the result didn't go our way this time. The final score was 38-46. It was a great game they ended with more energy than us as we ran out of replacements and had no subs. I am proud to say I was part of the Blue team that came 8th in our division.

Angus Lewer (9DT)

### Junior White

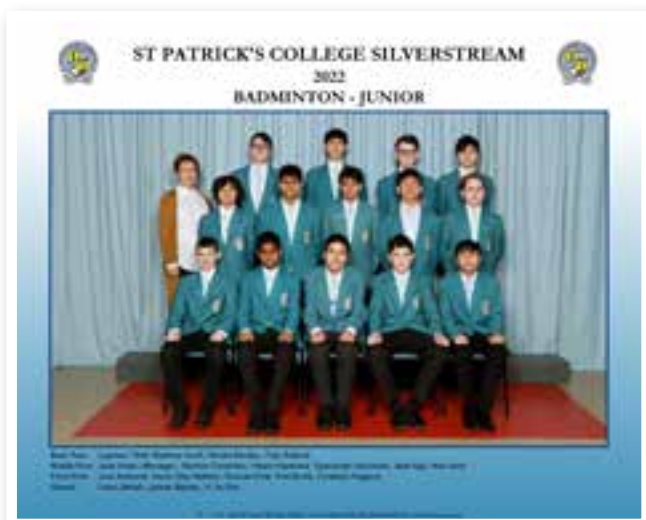

It was a slow burn to start, with the team gaining confidence as the season progressed. Their grit, determination and teamwork resulted in a strong finish to the season that saw them matched up against the Pats Blue team. A to-and-fro match down to the wire with WHITE coming away with it in the end, placing 7th overall. There is more to come from these young men.

# BADMINTON

## Senior Badminton

The Senior White Badminton team: Nathan Lucock, Jason Scalon, Ben Baniqued, Renz Pepa, Alexander Heffernan and Joseph Simock. These six boys won their final and received a well-earned medal. They beat Wellington College 5-1 in the final with all the games being very close.

The Senior Blue team: Sean McGhie, Karl Gratela, Liam Mort, Suman Depuru Venkata, Pikimai Pickering and Jacob Werohia-Praat. They came third in their grade while the White team was first and went onto the regional finals.

These young men are all reliable and displayed excellent fair play. They could navigate themselves around the Hutt Valley and stay the distance during Covid disruptions. I wish the Year 13 students who have played for five years, all the best in their future studies.

Graeme Hydes

# DRAGON BOATING

During 2022 the Stream Dragon Boating crew continued their success. With COVID-19 restrictions still in place the organisers did an amazing job getting the event running within the guidelines. Thankfully, we were more organised than last season so we could use all eight of our available training sessions to their full potential.

After last year's successful revival of the boys division, we had an important challenge ahead of us; to keep the streak (107 race wins and 0 losses). Like last season we only had a few crew members with any experience, this was no small undertaking. But the crew stepped up and made no excuses for themselves as they trained hard. The boys made massive improvements on their fitness and technique thanks to the hard work and encouragement from our fantastic coaches.

The focus for the crew was maintaining our winning streak at the Wellington College Sport Dragon Boating Festival. We were looking forward to lots of racing on the day, however there was not enough interest in the 10 person boats, so we only raced the 20 people. Heats this year were mixed with those entered the different divisions (boys, girls, and mixed) all occurring together. Our times were only compared in our division. We won all our races, although some were tight!

We then had a break for some lunch, and this would usually be the time for the chant competition. However, because of the COVID-19 restrictions this could not happen. We were gutted.

The crew was amped going into the final race, more determined than ever to keep the streak alive. It was an awesome, but close final, with our boat just a stroke ahead at the finish line! It was a great way to finish the season winning the final with the fastest time of the whole regatta! The boys were gracious winners and congratulated Bishop Viard on their effort in such a close race. They again demonstrated this humility at the prize-giving when boys from both Colleges performed their hakas.

Thanks to our coaches and sweeps Chris Fox and Baz, and our manager Mrs Thompson, for the huge time, effort and dedication to the crews. Without their hard work the crew wouldn't have improved as much as they did, in such a short time.

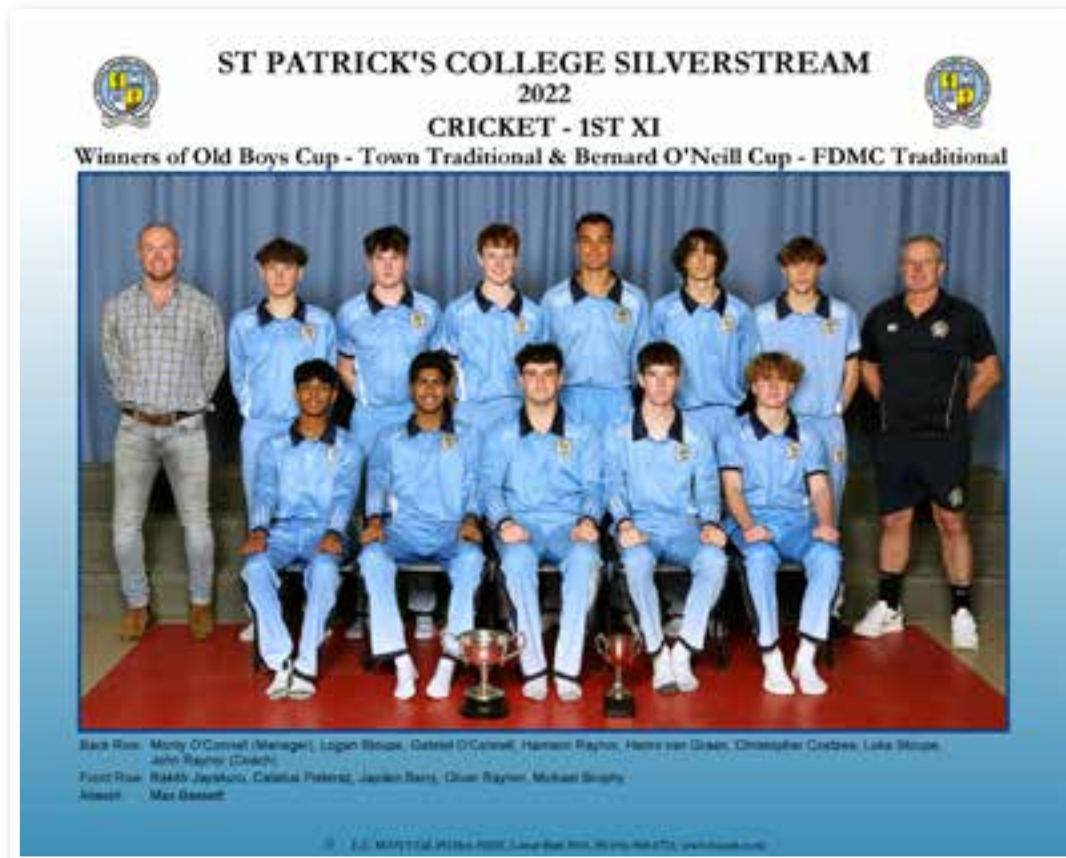

'KEEP THE STREAK!' 112-0

# CRICKET

## Cricket 1st XI Report

Sitting writing this report on the 2022 cricket season I am reminded of the fantastic journey this team has been through this year after the disappointing year previous.

After relegating from Premier Youth Grade in 2021, it was taken on as a collective, that winning all 3 day traditional matches in 2022 was to be our main focus in Term 1 and to gain promotion back to PYG was to be our focus for Term 4.

The season started in Term 1 with a trip to New Plymouth to play a three day traditional against Francis Douglas Memorial College. After losing to FDMC the year before, at home, we were keen to switch the ledger. Batting first we mounted a formidable first innings score with both Hanro and Luke scoring 100 and 107 respectively, and our score finishing on 311/9.

The second innings saw us roll FDMC for 153 with Gabriel O'Connell taking 5 for 29 off 11 overs. This meant that we made FDMC follow on, and with weather not looking good for the last day we challenged ourselves to bowl them out again on day 2. With the whole team going hard we rolled them for 121 all out. It was an outright win by an innings and 37 runs.

Our next match was the 3 day traditional at St Pat's Town. Much tougher with all the rivalry of a 1st XV game. This match saw Silverstream start with 3 sets of brothers. (Gabriel and Kian O'Connell, Luke and Logan Stoupe, and Oliver and Harrison Raynor)

Batting first we made 314 all out. Luke Stoupe was unlucky not to get another century, falling just 3 short on 97. Town responded with 174 all out with the wickets again shared about.

This made us bat again and we scored a quick 117 to then send them back in needing 257 to win. Then led by Harrison Raynor with 5 for 24 off 16 overs we bowled Town out for 121. This gave us an outright win by 136 runs.

Unfortunately, our 3rd day game was cancelled with St Bedes (Christchurch) not travelling due to Covid implications.

This brought us to our Prem 2, 1-day competition where we were really bossing most teams with only a shock loss to HIBS 2. Again Covid played its part here with Hanro out and others quite poorly on the day.

### **Notable Scores in Prem 2 Term 1:**

Hanro Van-Graan	87 vs Scots 2
Max Bassett	107 vs Scots 2
Oliver Raynor	61 vs Scots 2
Hanro Van-Graan	50 vs Scots 2
Hanro Van-Graan	69 vs Rongotai

### **Notable Bowling in Prem 2:**

Harrison Raynor	5 for 33 off 10 overs vs HIBS 2
-----------------	---------------------------------

The next traditional was to be the 1-day match versus PNBHS in Palmerston. This is a fixture we have always struggled with in the time that I have been present. This year, but for one of their batsman scoring a century, I believe we would have won this one. We kept PNBHS to 217/8 off 50 but could only manage 157 with the bat. It was closer than the last few years but maybe next year we can pinpoint a win here.

Term 4 saw us in Prem Reserve with the second major focus of the rear, to get promoted back to PYG for 2023.

The starting team changed a lot from Term 1 with some of the Year 13's standing aside to give opportunities to younger boys. I thank these lads for that. They include Gabriel O'Connell, Chris Coetzee and Logan Stoupe. I would also like to thank the Year 13's that stayed on to help. Captain Jayden Barry, Oliver Raynor and Hanro Van-Graan.

With the new team assembled we performed well at times and frustratingly average at others. However we got there in the end winning the grade by two points and achieving promotion.

### **Notable Scores for Term 4**

Oliver Raynor 59 not out vs Wellington College Gold

MVP for the season was Hanro Van-Graan

Best Batsman for the season was Hanro Van-Graan 597 runs

Best Bowler for the season was Harrison Raynor 38 wickets

Taita Cup for the Best Team Man was Michael Brophy

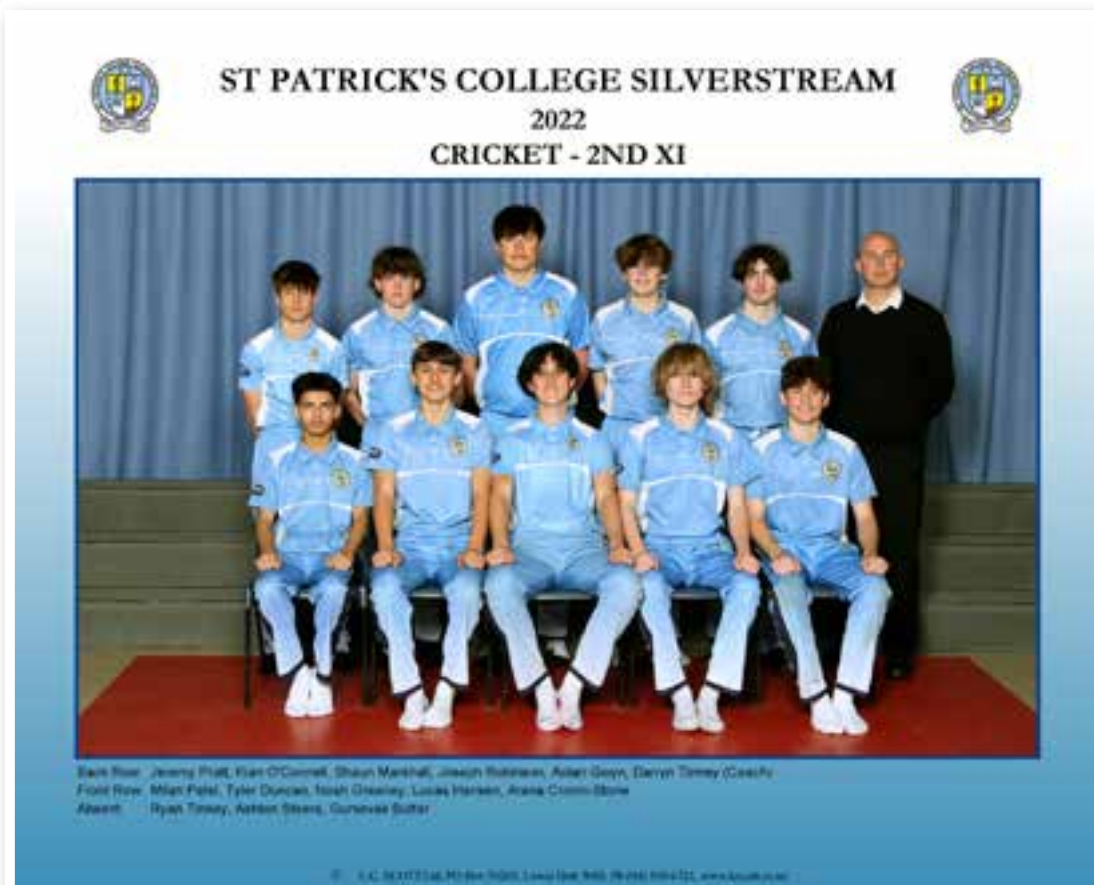

Finally, I would like to thank all parents, whanau and care givers for all the help throughout the cricket season. From scoring, to lunches, to removing covers. It is a big task so all the help was totally appreciated. I'd also like to thank Caleb Montague and JJ Fielding for their coaching assistance in Term 4.

Let's Go PYG

John Raynor  
1st XI Coach

## 2nd XI Cricket Team

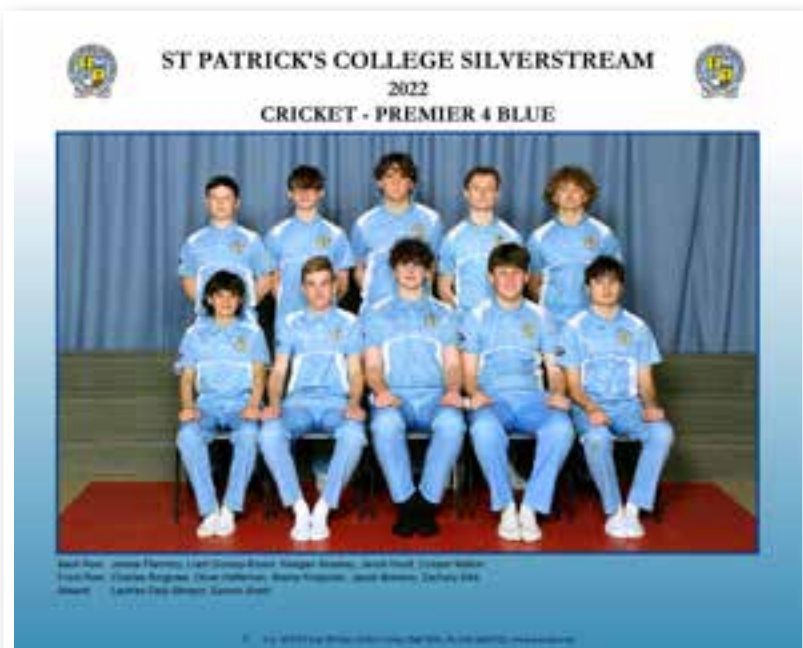

The 2nd XI started the year in the Premier 2 grade. We faced some very strong opposition throughout the season, including our 1st XI. The goal for Term 1 was to qualify for Premier Reserve. Despite suffering losses in our first two games, we were able to come back and win three out of the four games remaining in the season. Fortunately, we had done enough and achieved our goal of promotion to Premier Reserve grade. Throughout Term 1 the team played some outstanding cricket. We also had some amazing individual performances, including Lucas Hansen's 5-41 against HIBS 2nd XI, Tyler Duncan's 4-16 against St Pats Town 2nd XI and 47 versus Scots College 2nd XI and finally Gursevak Buttar's 53 against Wellington College Gold.

We resumed the second half of the season in Term 4 in Premier Reserve. We started off the season with a bang by chasing down 250 in 30 overs against Wellington College Gold. This effort was heavily aided by Shaun Marshall's 162 off 86 deliveries. This effort continued throughout the season as we won our first 3 games. However, we couldn't carry on the winning streak and lost our last two games. We finished fourth in the grade, which was a massive achievement. Some stand out performances during the second half of the season include Shaun Marshall's 162, Tyler Duncan's 46 and 53 against Rongotai College 1st XI and HIBS 2nd XI, Zach Ellis' 4-12 against Rongotai College 1st XI, Arana Cronin-Stone's 49 and Joseph Robinson's 46 against Wellington College Black and Noah Greaney's 5-45 against Tawa College 1st XI.

We achieved a lot as a team this year and we can be really proud of our boys and what they did. A big thank you to Darryn Tinney and Damian Stone for managing and taking the team on Saturdays and Caleb Montague for taking the team trainings and coaching us throughout the year.

Arana Cronin-Stone

### Premier 4 Blue

There were some good moments in this season. Some centuries and half centuries. Many players took outstanding wickets, some multiple wickets per game. Throughout we played competitively, and put up a great fight against every team we faced, coming away with some great results. I also give special thanks to Kieley, Alan and Anthony for giving up their time so that we could pursue our passion for cricket.

### Premier 4 White

P4 White had a challenging run this season, but their spirit, determination and attitude remained strong. Our captain for most of the season was Alex Neazor-Grant and his performances with bat and ball were a fine display of leading a team by example. Kyle Keen played some memorable innings with the bat and his hitting power was at times devastating to opposition bowling attacks. With more games under their belt, their camaraderie, loyalty and team spirit, will all combine to create better results.

## T20 teams

**Ashtons** had a strong season with a mix of results. Stand out performance of the season was from Sam Price scoring 100 runs against Hutt Valley High. Alfie Becker always had high energy in the field pulling off some great stops and catches. Reuben Mahony and Shea O'Donoghue were the stand out batters with some incredible partnerships between them. Ashton Curtis and Jack Brown brought the heat with their bowling and both finished the season as the top bowlers. New recruits Cullen Holmes and Joey Peirce were the masters of deception with some great bowling performances as well.

### Year 13 T20 - what a story!

What started as a ragtag gang of the freshest freshman in College bat and ball has evolved into a group of grizzled veterans that exude passion with every boundary walloped and bail snapped.

Led by Captain Alexander James Heffernan and the ruthless leg spinner Spencer "Sponkey" Corbett, this team played out a relatively successful campaign that was spoiled by cancellations, but with standout performances by the aforementioned captain, Nathan Lucock and Oliver Foley.

Ollie, or as he's better known by his teammates, The Hawkes Bay Matt Henry, is one of the newest members of this beloved faction and has proved many doubters wrong with his performances in the team. With respectable 5 wicket contributions in 3 games, the human postbox is certainly a deserving shout for this season's MVP. This along with the always consistent opening batsman/wicketkeeper Jason Scanlon, economy king Louie Poland, and the ever-absent Joel Burrell made the debate all the more difficult. Although none can overlook Alex's 3/3 bowling figures during a dominant win against Hutt Valley High School when debating a topic of such magnitude.

Of course, no team is complete without great staff behind them. The style of play that the boys adopted in late 2021 was largely down to the new man in charge at the time - Tuffin ball revolutionized T20 cricket in a way not seen since the brief stint served by the Mangaroa MS Dhoni (Jacob Skelton). The administrative powerhouse that is Julie Scanlon (mother of Jason) was deemed an unsung hero for the boys throughout their time in Year 13 T20, knowing that much of it wouldn't be possible without her.

The boys look to finish off their time here at Stream as champions of the Term 4 season. Regardless of the result, our golden generation have undoubtedly left a Jayden Marsden-sized impression in the history of cricket.

Spencer Corbett (Y13 T20)

## 9A

A team with undeniable individual talent. The challenge this year, being the boys first year at the College, was to get to know each other and become a team. While I felt we were unlucky and that the results don't show it, I am proud that the boys achieved this.

I'm proud of their resilience, positive attitude towards the game, opposition and each other, and most of all proud of the way these young men represented themselves and their school.

Special thanks to Caleb Montague, a fantastic asset to the school, the boy's improvement this year can be attributed to his efforts.

## 9B

With a group of keen young men, who were in their first year at College, it was always going to take a while to gain some cohesion, and without a full-time coach (and experienced manager!) things were always going to be slightly askew. Our thanks to Warrick for his help in getting the team numbers together, to our resident scorer Kieran and umpire of most games Marty, and the parents and families who helped and turned up to support the team.

## Colts Cricket trip to Hawkes Bay

A squad of 12 Years 9 and 10 boys travelled to Hawkes Bay from the 27th November till the 3rd of December to play in the Colts tournament hosted by Napier Boys High School.

The boys played four matches over the four days which saw the team win two and lose two games.

### **Match 1 vs St Johns College**

An excellent start to the tour saw the boys win comprehensively against a spirited St John's team. Stream won the toss and elected to bat first. After a small wobble upfront Joseph Robinson and Tyler Duncan put on an excellent 184 run partnership to set up a total of 236/9.

The boys then followed that up with wonderful batting and bowling and bowled St John's out for 143 runs. Alex Neazor-Grant was the pick of the bowlers with figures of 5 overs, three wickets for 12 runs.

### **Match 2 - Napier Boys High School**

After day one's high, the boys were brought down to Mother Earth quickly after having been invited to play Napier Boys High top junior team, made up mostly of Year 10 boys.

The occasion proved too overwhelming and Napier Boys had a convincing win.

### **Match 3 - Havelock North High School**

The boys bounced back superbly and recorded a win against Havelock. Ashton Steere opened the batting. He scored with 76 runs and was ably supported by Daniel Pinchin, after a small collapse, to post a total of 191/9.

Havelock was then bowled out for 108 with Kyle Keene being the pick of the bowlers, with figures of 8 overs, three wickets for 25 runs.

### **Match 4 - Hastings Boys High**

Stream won the toss (after a high from the previous day) and elected to bat first. Excellent bowling and fielding from Hastings saw Stream bowled out for 104 runs which proved too easy for Hastings in their innings - an unfortunate loss for Stream.

The Colts team, hosted by Napier Boys High School, stayed in the senior boarding establishment. Fun was had with joining Napier Boys daily for breakfast and dinner as well as their Christmas dinner. We enjoyed the use of the on-site pool in somewhat humid conditions.

Much was learnt by the boys over the five days and no doubt sets up for future tours. A big thanks to Caleb Montague – Coach and Quintin Pinchin – Manager for all their hard work and making the trip an enjoyable experience.

# GOLF

## CROSS COUNTRY

In 2022 COVID knocked over the Athletics season, but Cross Country by the skin of its teeth, survived! We started with a traditional school XC and it was terrific to be in this traditional race again after a good 3 years' absence.

### School Champs

Year 9 Champion Logan Rice  
 Year 9 Runnerup Codey Thomas  
 Year 10 Champion Callum Wos  
 Year 10 Runnerup Dominic Rogers  
 Year 11 Champion Laito Fauchelle  
 Year 11 Runnerup Oliver Heffernan  
 Year 12 Champion Joshua Jordan  
 Year 12 Runnerup Max Poland  
 Year 13 Champion Sean McGhie  
 Year 13 Runnerup Rishabh Sahrawat

### Karori Relays

Wednesday, May 11th, 1:30pm at Karori Park

The usual relay to start the season was as competitive as ever. Our top guns showed great early season form although the Senior A team was missing our top runner, Josh Jordan. It was great to have two Year 9 teams involved. A superb team run by the U16 boys, Callum Wos had the fastest time, while Max Poland had 5th best time in the Seniors.

## ST PATRICK'S COLLEGE SILVERSTREAM

## CSW Wellington Champs

Wednesday May 25, Harcourt Park.

The Regional Champs were a chance for the boys to test themselves before Nationals a month later. For the Seniors it was a big test, with the 6km distance a real test of endurance.

Year 9 3k		Under 16 4k		Senior 6k	
Josh Lamb	21st	Callum Vos	1st	Joshua Jordan	3rd
Codey Thomas	23rd	James Browne	26th	Max Poland	8th
William Lemon	33rd	Pat Poland	33rd	Sean McGhie	27th
Oliver Bargh	42nd			Laito Fauchelle	31st
Albie Betteridge	44th			Oliver Heffernan	34th
Flynn Croasdale	45th			Liam Dunlop-Brown	36th
Archie Johnstone	50th			Rishabh Sahrawat	37th
Logan Fawcett	51st			Rishi Sahrawat	39th
				Harrison Walker	

Seniors led in by a great run from Josh, who repeated his 3rd place from 2021, and took 2nd in the 6 man. The U16 team suffered from the loss of a few boys who had illness, which was a shame as Callum was in superb form in this race, defeating the Year 9 Champion from 2021. The Year 9 boys were newbies, and had an experience they would have learnt from!

## Cross Country NZ Sec Schools Champs

Nationals were in Nelson, back at Saxton Field, after a 10-year gap. The team had changed a bit, with some new boys coming into Year 9, and the work had been done. This was the culmination of some great team prep. The course itself was flat, but boggy after rain, and it got worse as the day went on. The Seniors were certainly affected.

Year 9 3k		Under 16 4k		Senior 6k	
Joshua Lamb	56th	Callum Vos	21st	Joshua Jordan	30th
William Lemon	58th	Blake Miscall	59th	Max Poland	31st
Albie Betteridge	63rd	James Browne	93rd	Sean McGhie	128th
Oliver Bargh	82nd	Pat Poland	106th	Oliver Heffernan	139th
Callum Byrne	84th			Rishabh Sahrawat	142nd
John-Pallid Tufue	86th			Laito Fauchelle	143rd
				Liam Dunlop-Brown	149th
				Harrison Walker	152nd
				Rishi Sahrawat	154th

# Cross Country

In Year 9 COVID had knocked around Callum Wos, and he took a good long time to come back from this, so his weekend was hard work. The team was short on numbers and the boys worked hard to get their third man placing of 13th.

In Year 9 the team was consistent, but around the middle of the pack. We are still looking for a challenger to emerge from this group who will take the boys into the top 20 placings. 6th in the team placings was a solid reward. In the Seniors Josh and Max did their best to challenge the top 10, but the soggy course was just too much, with both boys dry course runners. Josh had started in the top 10, and did well to stay strong as the race went on. The remaining Seniors ran well, but were unable to stay close to Josh and Max. The 6-man team placing of 12 was a fair result.

## Cahill Cup vs Town

Wed July 28 at Town

This event is our warmup for Whanganui relays. It's a great event between us and Town, with the Cup swapping hands regularly. This year, they continued their good form from the Nationals to beat us over the 2.1km course, 6 to count, with 5 being the bare minimum if a school can't get 6. Extra runners beyond the 6 do not get recorded for the team comp.

Year 9				Under 16				Senior			
Bernard Stallard	T	7:49	1	Callum Wos	S	6:33	1	Max Poland	S	6:31	1
Albie Betteridge	S	7:54	2	Jaguun Willers	T	6:41	2	Wilson Li	T	6:37	2
Xavier Glass	T	8:16	3	Connor Kemp	T	6:52	3	Josh Jordan	S	6:39	3
Charles McDougal	T	8:18	4	Jack Clark	T	7:18	4	Conor Chesney	T	7:09	4
George Clark	T	8:26	5	Blake Miscall	S	7:21	5	Aiden Chesney	T	NT	5
Logan High	T	8:30	6	Max Lewer	S	7:57	6	T		NT	6
Callum Byrne	S	9:08	7	James Browne	S	8:03	7	T		NT	7
Ollie Bargh	S	9:40	8	Pat Poland	S	8:21	8	S		NT	8
Josh Lamb	S	DNF		Charles Burns	T	8:28	9	S		NT	9
				Sam Jones	T	9:10	10	S		NT	10
				Cormac Chesney	T	9:11		T		NT	11
								S		NT	12
								NT=No Time			
Win: Town				Win: Stream				Win: Town			

Town won two grades, with some concern in the Senior race as Town staff directed Josh Jordan the wrong way when he was leading. It was great to see Callum back in good form. In Year 9 we struggled, which was unexpected.

## RECORDS – for the Town 2.1k course.

<b>Senior</b>	Marcus Karamanolis	Town	2012	6:08
<b>U16</b>	Callum Wos	Stream	2022	6:33
<b>Year 9</b>	Marcus Karamanolis	Town	2010	6:33

## Whanganui Relays Monday September 9

One of the coldest, wettest relays in Whanganui...ever! A real shame, as this is a great event.

### RESULTS

Year 9		Juniors		Seniors	
A Team		A team		A team	
William Lemon	8:24	<b>Callum Wos</b>	<b>7:00 REC</b>	<b>Josh Jordan</b>	<b>6:37 REC</b>

				Josh Jordan	6:48
				<b>34:31</b>	

### RECORDS

<b>Year 9</b>	7:17	Talor Gilmer	2007 (took 6th at the NZ Cross Country Champs Year 9 that year)
<b>Under 16</b>	7:00	Callum Wos	2022
<b>Seniors</b>	6:37	Josh Jordan	2022

Thus the 2022 season ended. We had made some progress, although it seemed to be some steps forward, then steps backwards. The hope here is for a stronger team in 2023, with more ups than downs. Thanks to Mr Havell who came on board to assist with XCountry, much appreciated.

# BOWLS

## ST PATRICK'S COLLEGE SILVERSTREAM 2022 BOWLS

Back Row: Adrienne Heath (Crest), Luke Faurholt  
Front Row: Jack Karasanta, Johnathon Bertley-Cobb, Liam Mori  
Absent: Ryan Fouts, Remy Macdonald, Orlan Quinn, Felix Rathbone

© J.C. SCHULTZ, 2012. All Rights Reserved. Printed in New Zealand. 100% Recycled Paper.

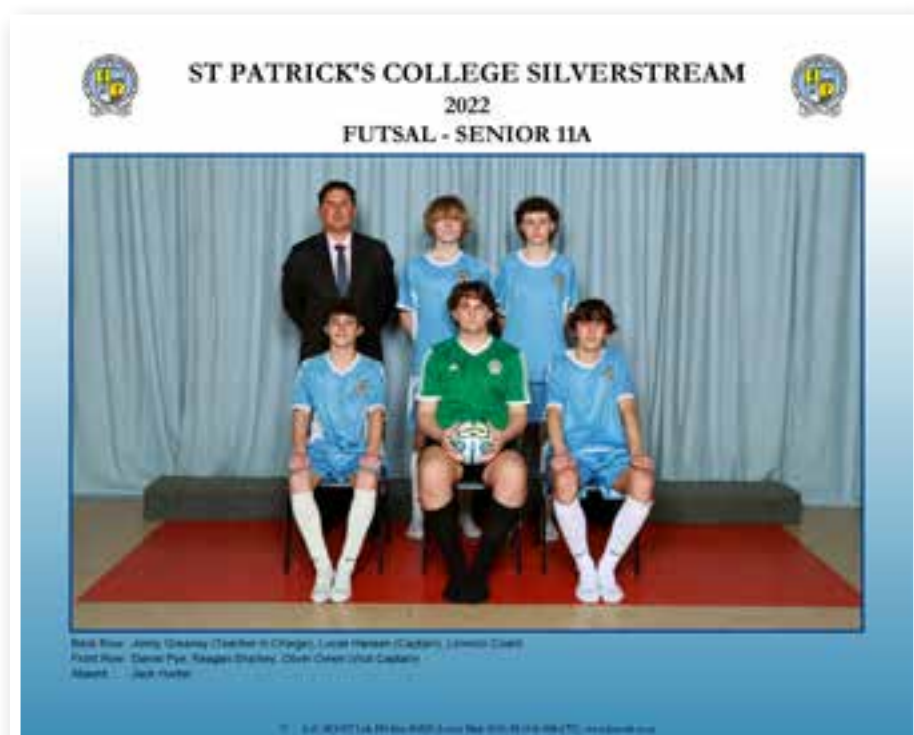

The Junior team played amazingly well and made it to the final where they went down to a very tough Rongotai team. With the bulk of the team still in the junior ranks, next year this group of players, have a promising future.

# FUTSAL

Futsal is a football game played on a hard court. This year we have fielded 9 teams. We have a mixture of competitive and social teams. In Term Four our Junior teams played on a Thursday night and our Senior teams played on a Friday at Walter Nash stadium. We have several players who now act as both player and officials.

As a sport code our goals for Futsal are:

- 1) To make Futsal available to any student who wishes to play
- 2) For players to play for enjoyment and to get better
- 3) To provide opportunities for players and coaches to develop and excel

Some sporting results of note from Term One were:

- Our Senior A team won the Division 1 Hutt Valley title. We can view this on <https://www.youtube.com/watch?v=3KEBIDHkwgc>
- Our Senior B won the Division 2 Hutt Valley title
- The Junior 10A were runners up in the Junior Division 1 title
- Our 9A's made the top four in Junior Division 1.

We selected two squads of players to represent the College at a one-day Regional Tournament. These tournaments are a highlight for all involved. This year

we had our Junior team placed 5th at the Regionals. Our Senior team placed 6th at the Regionals. Because of Covid the nationals did not happen. Our Senior team, played in an eight team invitational tournament in Auckland during the October holidays. Watch this space for some promising results.

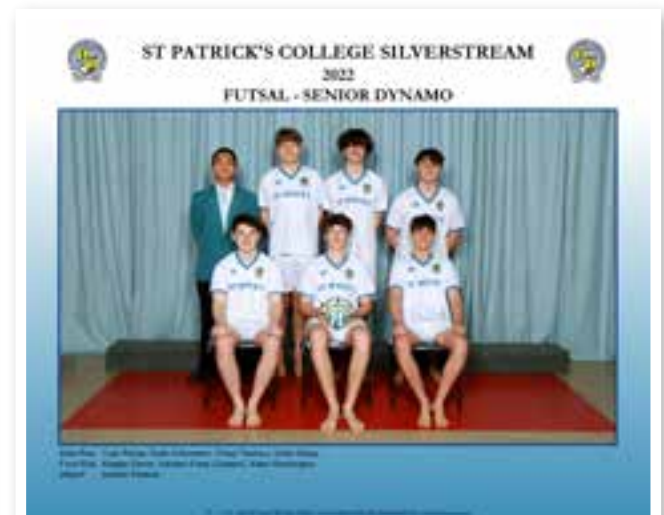

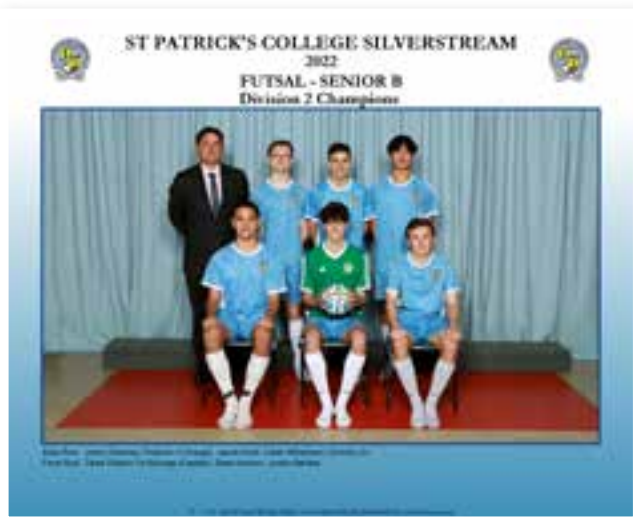

We would like to congratulate the following student officials who are qualified Futsal referees: Aidan Muffit, Caleb Maxwell, Isa Prins, Taika Canton- Te Aotonga, Daniel Stewart and Noah Greaney. It is great seeing you contribute and develop your passion.

We had three players represent Capital Futsal in under 18, Isa Prins and Philip Fatialofa and in the Under 15's Patrick McCluskie. We congratulate each of these players in representing their province.

A big thank you to our adult coaches Eli Meyrick, Kevin Havill, Hanno van Helsdingen for their time and effort. We congratulate the following players who have been drafted in Capital Futsal Senior club teams for the Summer.

Eli Meyrick has been coaching in Futsal programme at our College over the last five years. We would like to thank him and acknowledge his servant leadership and passion for this sport. We wish him all the best in his role in coaching Futsal and 1st XI Football at Upper Hutt College.

## Auckland Futsal Trip Report

The school holidays provided an ideal opportunity for a squad of 12 players and two staff to participate in a seven game Futsal Tournament. The invited 12 players flew to Auckland a day earlier and this allowed us to plan and build our team culture, and the opportunity for two 1 hour training sessions at our accommodation venue.

### **Game 1 vs Rototuna Senior High School**

A 3-nil win against a skillful opposition. Goal scorers Taika, Isa and Lucas all with left footed finishes.

It was pleasing to not concede and a really good chance for our two pods of players to have valuable court time.

### **Game 2 vs Hamilton Boys College**

An 8-nil win against the tournament favourites. Many things went our way against a confident opposition who lost their composure when we placed them under pressure. Goalies Keegan and Daniel had plenty of work and both made outrageous saves at crucial times in the match.

Goal scorers Philip (2), Ben (1), Sam (2), Noah (1) Isa (1) Neihana(1)

Thursday

### **Game 3 vs Tawa College**

A 4 - 1 win that our opponents made difficult for us. Tawa were staying with us at Camp Adair and the players enjoyed the opportunity later that evening to discuss the game. Our player rotations and passing created a number of scoring chances. We conceded our first goal of the tournament after a piece of individual brilliance. Goal scored by Lucas and Ben with two each.

### **Game 4 vs Rotorua College**

A two all draw against an experienced and well-coached team. This match saw us perform under more pressure as game momentum shifted quickly following goals. This match was very entertaining as both teams displayed incredible physical and skillful attributes. Again, both Daniel and Keegan kept us in the game with several stunning saves between the sticks. They had, back at camp, many a discussion between the teams, as this result saw us both through into the top three. Our goal scorers were Philip and Ben

### **Game 5 vs Napier Boys**

Our final game of day two saw us secure three points and top spot against a rapidly improving opposition. In a close match we secured a 4 - 3 victory with our pod system enabling fresh legs to make a difference. An individual goal from Isa deserves a mention, as he beat four players and the keeper in a weaving run

from deep on the court, to retake the lead. Our passing variety and accuracy was a real point of difference and with some of our attention to set pieces, providing some knife edge scoring chances.

### **Game 6 vs Rotorua Boys High School**

This one - nil victory secured the Camp Adair challenge trophy against our evenly matched opposition. The final day was themed "wearing our big boy pants" as we wanted to build on our momentum and secure the title. A Sean Keenan goal following him breaking the line proved the difference. Our team defense and player rotation came to the fore with fresh legs making the difference against our opponents, who were pulling out all stops for victory. It was pleasing to see the way we managed the final two minutes playing positively, but using opportunities to run down the clock.

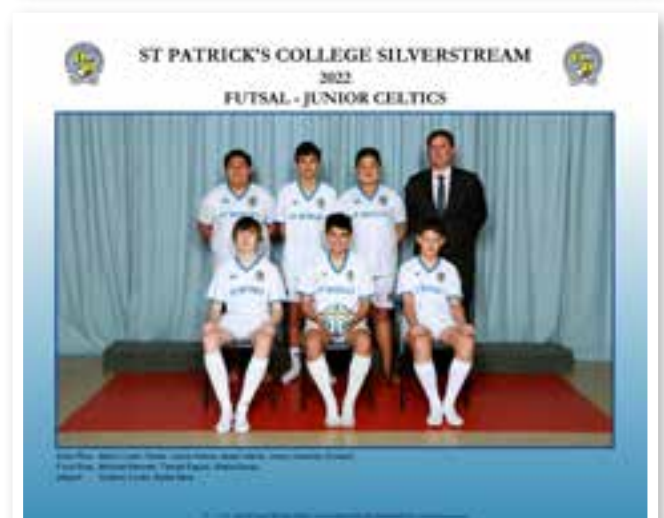

### **Game 7 Hamilton Boys**

Our final game was against Hamilton Boys who had previously beaten Rotorua Boys by four goals meaning that only a victory would secure us first place. The day was themed 'wearing our big boy pants' that is stepping up and finishing to win the tournament. The game began at a frantic pace with Keegan saving bottom left in the opening seconds. We had to adjust to a new attacking formation, used by Hamilton to break open our defensive line.

Nil - all at half time the game momentum shifted when Sam pressed the opposition pivot at half-way. He won the ball and finished expertly in a one on one. We then withstood sustained pressure, Jared's defense down the sideline saw him put his body on the line to secure the ball before Sam scored a second. In the final 30 seconds following a defensive free kick Isa then finished things off with a length of the court chip! Final secured three -nil win. "Big boy pants" firmly attached!

The experience of staying together in camp is well worth repeating for future teams. If you wish to watch two full games, then you can find them on Rotorua Boys High Football Facebook page. A big thank you to our St Patrick's Silverstream sports office for their help in booking accommodation, flights and kitting us out. Thank you also, Tim Mannix for his advice on building a team culture and special mention to teacher Kevin Havell who was the chief navigator and assistant coach. It was an incredibly rewarding four days! The boys were a pleasure to look after and coach. Congratulations to the players who are the inaugural title holders of the BOSS futsal Tournament. We scored 25 goals in seven games conceding only 6. The group of players seem determined for more silverware. Roll on Hutt Valley Friday nights and then Nationals in 2023.

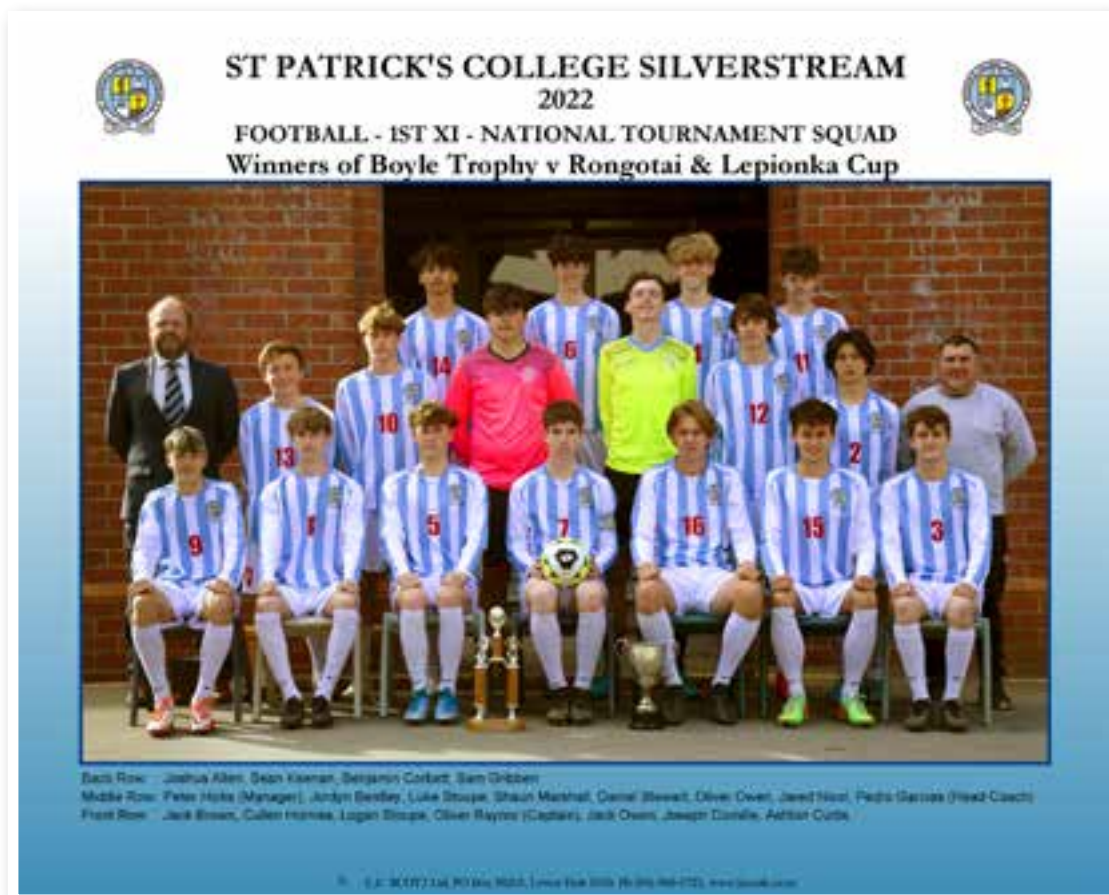

Eli Meyrick has been coaching in Futsal programme at our college over the past five years. We would like to thank him and acknowledge his servant leadership and passion for this sport. We wish him all the best in his role in coaching Futsal and First XI Football at Upper Hutt College.

# FOOTBALL

2022 was another season affected by Covid and one of the wettest seasons in living memory; there were a record number of cancellations and defaults as schools struggled to find 11 or 12 fit players to take to the pitch.

The College was, once again, able to field eight teams, five senior and three junior squads. This year the 3rd, 4th and 5th XI were year level teams (3rd XI, Year 11; 4th XI, Year 12; 5th XI Year 13). This setup was instigated by the students wanting to represent Silverstream with their friends and peers.

A number of staff, parents and old boys stepped up to help manage and coach the teams; their time and effort play a huge role in supporting the players.

## 1st XI

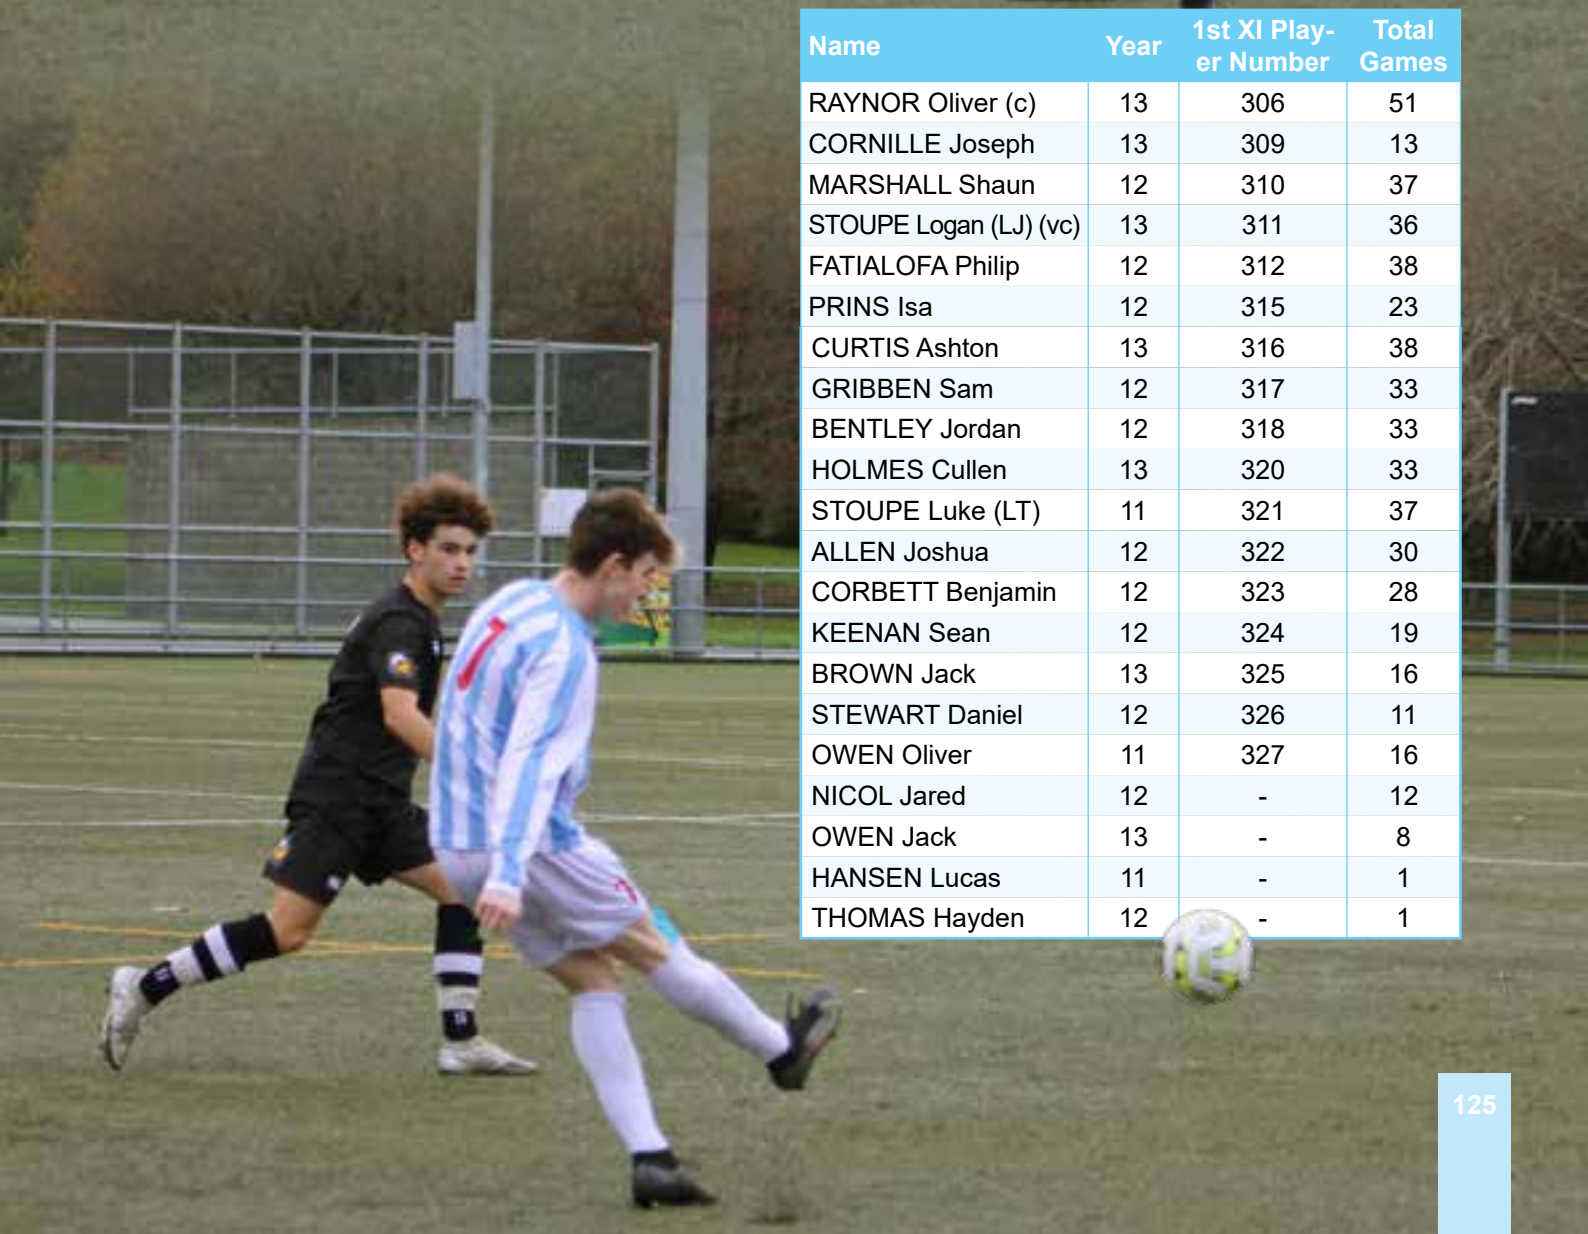

This year we welcomed back the coaching services of Mr Pedro Garcias and with the support of some wonderful sponsors were able to have a very strong preseason programme. Huge thanks needs to be given to Des Smith, Jason Gribben and Deneefe +corada sign systems and John Raynor with Wainui Joinery.

The season started with qualification matches into the Premier grade and ended with the Premier National Tournament being held after a two year Covid enforced hiatus in Napier.

All the players who represented the College this year maintained the standards and expectations of the past players and have continued to improve the legacy of the 1st XI Football team. The captain of the team was Oliver Raynor who earned his 50 game pocket this season. This total only includes official competition matches and has no pre-season or tournament games.

The following table represents the 21 players that represented the College in Traditional fixtures or College Sport Wellington competitions this season. To earn a cap for the 1st XI you must play in a full length game, with an official referee and have a member of the 1st XI management team witness your play. Players who have started and played in three games also gain a unique 1st XI player number.

Name	Year	1st XI Player Number	Total Games
RAYNOR Oliver (c)	13	306	51
CORNILLE Joseph	13	309	13
MARSHALL Shaun	12	310	37
STOUPÉ Logan (LJ) (vc)	13	311	36
FATIALOFA Philip	12	312	38
PRINS Isa	12	315	23

2022	1 – 1	No game	1 – 0	1 – 2	2 – 1	No game

## Traditional Matches 2022

Our Traditional programme has been severely affected by Covid changing the landscape of schoolboy fixtures and the challenges to fit all our matches into a season. A previous strong connection between PNBHS looks to be very likely lost with less time available for this midweek fixture and the cost of the St Bede's College trip really making this impossible this year. From the four matches played this year the two win, one draw and a loss proved that we can compete with the strong schools and lead the way to qualify for the Premier Nationals. As Diego Maradona has said "When people succeed, it is because of hard work. Luck has nothing to do with success."

### ***New Plymouth Boys' High School at Maidstone Turf LOSS 1 -2***

Summary: A very tough day with the cold wind and a physically strong opposition really affecting how we struggled to get out of our half and play football. The first half saw NPBHS constantly press us defensively and we struggled to get any momentum and play football. At half time we were down 0 - 2 and we were shown to lack enough physicality. The game changed at half time as we were able to play with the wind and with Ben Corbett's goal we were playing some strong football with control in the midfield. Although we pushed forward we were unable to score again, even with more chances created compared to New Plymouth. The eventual score is a true reflection of the deserved winner of this fixture.

MVP: 3 - Corbett; 2 - Fatialofa; 1- Marshall

### ***Wellington College at Silverstream DRAW 1 - 1***

Summary: Playing at home created a great atmosphere for the team. We started very slowly and were behind due to a striker's turn and finish with our poor marking contributing to this goal. The middle hour of the game saw significant movement from both teams with defensive units being moved about well by both oppositions. Jack Brown scored early in the second half after a delivery from Luke Stoupe. Both teams tightened up and made shooting difficult. The final result showed the closeness of the two teams.

MVP: 3 - Fatialofa; 2 - Brown; 1 - Stoupe LT

## **Rongotai College at Silverstream WIN 1 - 0**

Summary: Our final home College match for the season saw the number one quite wet due to overnight rain. Injuries and Covid isolation caused a change in formation with a narrowing of the top three into a lone striker to a 4 - 2 - 3 - 1 setup. Sam Gribben scored from a well delivered Sean Keenan cross at the beginning of the second half. This was after a first half with lots of shooting but very little accuracy from both teams. We were only kept in the game with a strong goalkeeper performance from Shaun Marshall and 3 one-on-one saves.

MVP: 3 - Marshall; 2 - Corbett; 1 - Stoupe LJ & Raynor

## **St Patrick's College, Wellington at St Patrick's College Wellington Turf WIN 2 - 1**

Summary: A strong performance was expected from our opposition after they were relegated from the Premier grade in our last College match of this year. Another very windy day forced both teams to play different styles of keeping the ball or playing long to create pressure. This match showed we needed to respond faster to a higher pressing opposition and prepared the basis for how we would play at the Premier Nationals later in the year. Town scored just before the break to make the most of the wind advantage they had, even though we created some good chances through Sam Gribben and Luke Stoupe's pace out wide. We moved into a back three and pressured them significantly higher up the field which created opportunities for more strikes on target. Oliver Raynor scored from a free kick and with the final kick of the game Luke Stoupe showed superb balance and speed to secure the winner in the 95th minute. MVP: 3 - Fatialofa; 2 - Raynor; 1 - Bentley

## **Traditional Matches Summary 2023**

P	W	D	L	GF	GA
4	2	1	1	5	4

MVP Philip Fatialofa.

## Premier National Tournament 2022

The qualification process for this year's tournament created 6 places from the Wellington competition. At the time of the tournament draw we were sitting 5th so were seeded with some strong teams. Teams were seeded into 8 pools of 4 with two games played on Monday and Wednesday and one per Tuesday, Thursday and Friday. The placings show the strength of the Wellington competition for the teams: Rongotai College - 31st, Rathkeale College - 30th, Silverstream - 24th, Wellington College - 8th, Scots College - 3rd, HIBs - 2nd

Mr Pedro Garcias was unable to attend the tournament as head coach so I was assisted by Andrew Watterson in coaching the team. Several families made the trip to Napier and a big thank you to the Stoupe's, Raynors, and Gribbens for their support.

### **Game 1: Pool G v. New Plymouth Boys' High School Result: Loss 0 - 3**

Summary: We lacked creativity and movement and were looking very lethargic as we struggled to get into the game. Three goals in the first half caused noteworthy struggles with personnel changes. In the second half we looked more assured at this level. We only had two shots in this game and this result reflected our play.

MVP: Cornille

### **Game 2: Pool G v. St Thomas' of Canterbury Result: Loss 0 - 2**

Summary: A continuation of our slow starts gave the STAC team the lead with a poor defensive organisation. We played significantly better for the next half an hour but were unable to create enough top third movement to threaten the opposition goal. A mental lapse gifted them another goal and we were down at halftime by the final score.

MVP: Cornille

### **Game 3: Pool G v. Rosmini College Result: Draw 2 - 2**

Summary: Another team who started so strongly and their energy forced us to lift our game higher. A back and forth first half saw both teams unable to create enough room to shoot. There were only 2 shots in the first half in total from both teams. We shifted players further forward to create more opportunities after the break and this gave Rosmini some gaps to exploit and were up 2 nil after 5 minutes in the second half. Changing to a back three caused us to move quickly and keep the ball and were rewarded after Ben Corbett drove from our half and interchange passing to finish a well-worked goal. Sean Keenan unselfishly passed to an unmarked Luke Stoupe to bring the scores level with 10 minutes left. This was a deserving result for the team to close the second day of the tournament.

MVP: Cornille

### **Game 4: Lower 16 v. Auckland Grammar Result: Win 2 - 1**

Summary: Against a powerhouse footballing school we shifted to play quickly with short interchange passing with an emphasis on speed and movement in the top line. Cullen Holmes scored early to take the lead utilising quick feet and a strong shot. He created more chances but could

not extend our lead at halftime. Daniel Stewart had another strong game with distribution but was not required to save a single shot from AGS. Joseph Cornille showed his high levels of both fitness and skill to score a goal from 35 out after driving from our half. With this increased energy of a two goal lead we were disappointed to let our standards slip and conceded with 10 minutes remaining. We built the final minutes on strong defence and continued to transition through the thirds quickly.

MVP: Nicol

### **Game 5: 17th-24th placing v. Napier Boys' High School Result: Loss 1 - 6**

Summary: After the previous result we were tired and looked out of our depth against a very physical team. We did score first with a driven ball from Jared Nicol finding Luke Stoupe who finished calmly from just outside the box but after that we were constantly under pressure and down at half time from two free kicks and a simple side foot finish. Napier were too strong in the air and kept us without the ball for long periods of time. As we became more fatigued, we even struggled to get out of our half - with the only shot in the match being the goal from the first half!

MVP: Corbett

### **Game 6: 21st-24th place v. Cashmere High School Result: Loss 0 - 1**

Summary: We tried to give opportunities to all players to play important roles in this match. Changes to formation were difficult for some players so we reverted to our standard 4 - 2 - 1 - 3 setup. Joshua Allen showed physicality and pace but again as a team we were unable to shoot either on or off target. In total, we had two shots in this match. A conceded penalty gave the CHS team the lead in the second half which we could not claw back with our top line being thwarted by a strong defensive unit.

MVP: Corbett

### **Game 7: 23rd-24th place v. Whangarei High School Result: Loss 0 - 3**

Summary: We could not field a full squad because of injury. I offered the Y13 boys in the final game the opportunity to start and choose their preferred position. We were very strong in the first half but again unable to break down the intricacies of goal scoring! Trailing at half time by one goal we dropped another goal from the kickoff. We moved players into a back three to push more players forward. This caused some sparkling football through two-thirds of the field but again nothing on target to force a goal. The final score showed the physicality of the opposition and ability to last a tournament with strong players.

MVP: Corbett

## Premier National Tournament Matches Summary 2023

P	W	D	L	GF	GA
7	1	1	5	5	18

They gave the MVP award to Joseph Cornille based on opposition and our assessment of his play. Final placing 24th in New Zealand.

# Football

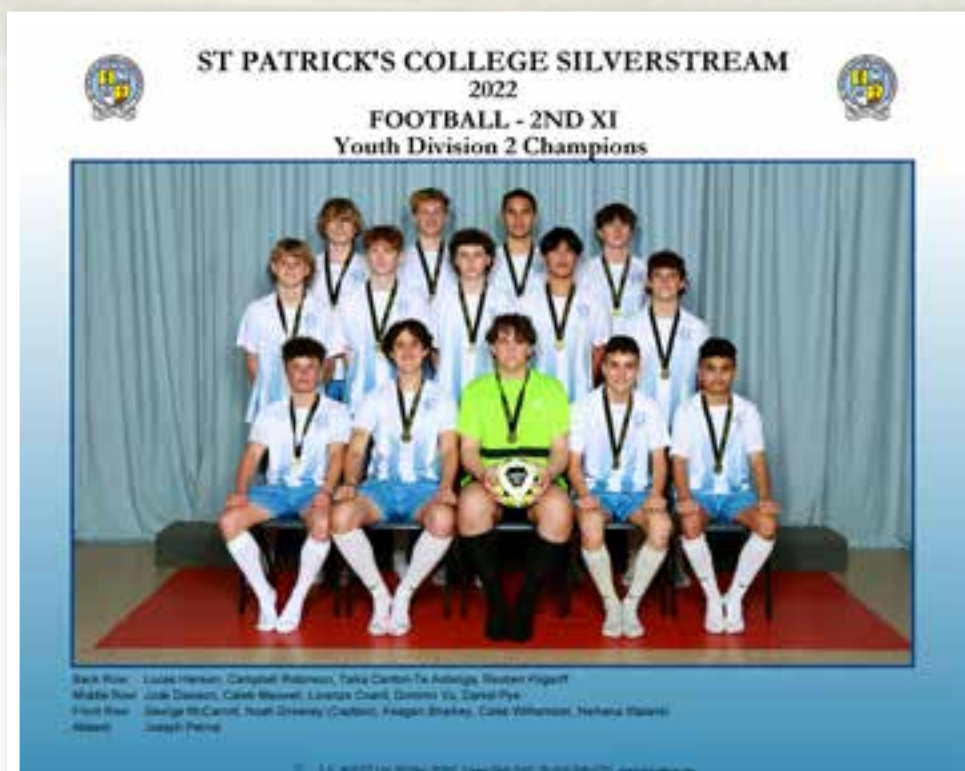

I would like to thank the service of the Y13 boys Oliver Raynor, Joseph Cornille, Logan Stoupe, Ashton Curtis, Cullen Holmes, Jack Brown and Jack Owen. Your commitment and contribution was superb through this and previous seasons and I wish you well with your future endeavours. I look forward to hearing from you and seeing how you take our values into your life both footballing and otherwise. As we move into the future, I look forward to working with the returning players as we continue to create our own legacy within the history of Silverstream football.

# HOCKEY

## 1st XI

The St Patrick's College Silverstream 1st XI Hockey team began the year with eight new faces because of past graduates. This meant that we could start rebuilding a championship team for the coming years. After selecting a bunch of highly promising talents, Stream started their hockey season against Wellington College 2nd XI. Although performing very well in the opening half of the season, Stream suffered various defeats within our league. However, after a well-needed break and a strong performance in the Rongotai traditional, the young team went unbeaten in the second half of the season. With the help of veteran players such as Hanro van Graan (119 caps), Chris Coetzee (66 caps), and Ethan Hindley (62 caps), under the captaincy of Sam Forbes (62caps) Stream ended the season top of the table leading into tournament week. After a strong performance during tournament week, Stream came back to Wellington to win our first playoff game against Aotea, before sadly losing a tight-fought battle against Kapiti in our Semi-Final. We finished our season drawing to Wellington College narrowly losing in shoot-outs to secure a 4th place overall finish.

As the youngest team overall in both tournament week and our local league, our placing reflects the effort and hard work these boys have put in to represent the school at the highest level. Having excelled in our local league, tournament week, and keeping our traditional trophy against Saint Pat's Town, it's clear there's a bright future for this young aspiring 1st XI Hockey team.

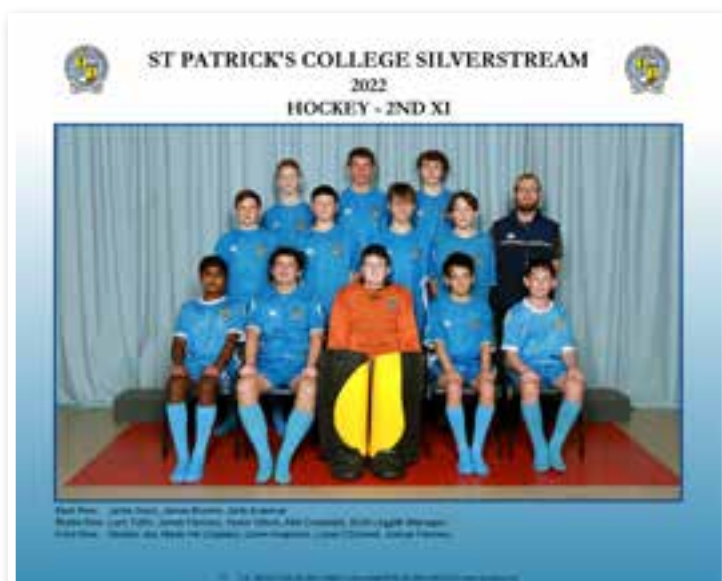

## 2nd XI

The hockey season this year was a long push for us to get where we are now. Although our scores normally were not victorious ones, we didn't give up and pushed through every barricade that was put against us. Our challenges taught us what we had to do to improve for the next game and the games after, allowing us to put up enough of a fight to give us a chance of winning and let us bond and grow, as not only a team, but as Stream brothers.

Our only wish for next year is for more young players who are interested in the sport and ready to give it a go. This will allow us to get a few more teams equipped and prepared to play.

By Xavier Gillum

# SOFTBALL

## Senior Softball

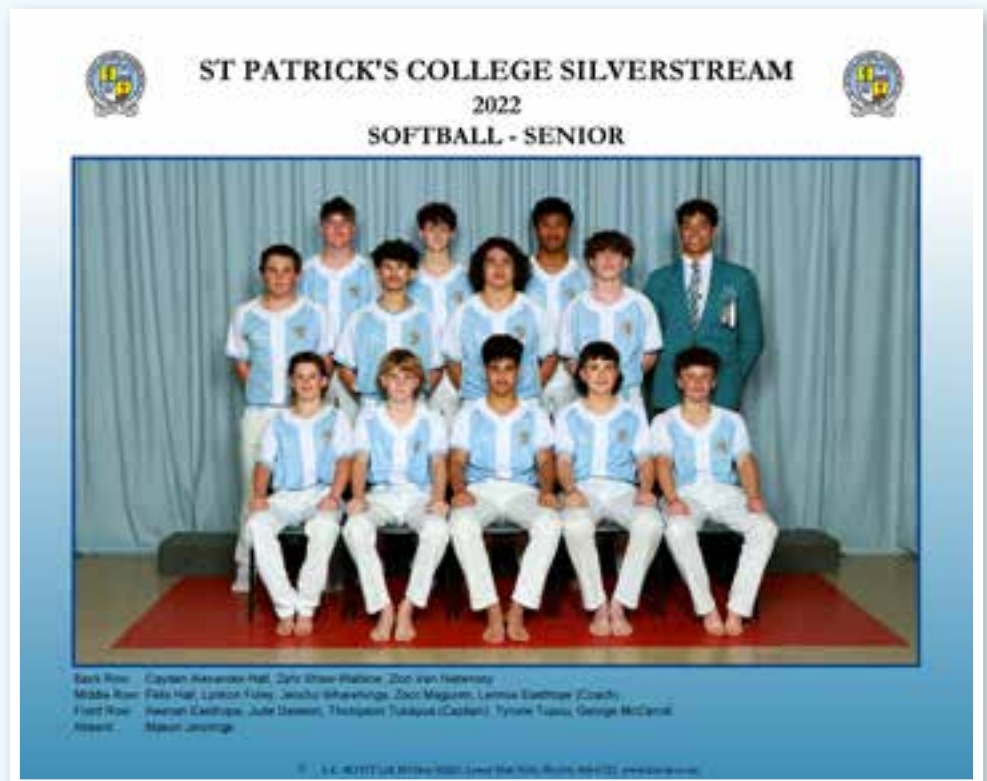

The St Patrick's College senior team had another successful year continuing their dominance of the Wellington Region, winning the College Sport Wellington Regional Softball Tournament for the third year in a row.

The team dominated throughout and were unbeaten throughout the tournament, winning the final comfortably 9-0 over a strong St Bernard's side, littered with Hutt Valley representatives.

During the tournament, in six games, the team amassed 62 runs for and 3 against.

The continued pursuit of excellence and achievements of the team have been inspiring and a good example of what a team can achieve, working together as a unit and not as individuals.

The team achieved their goal of achieving the 3 peat and have now remained unbeaten in three seasons.

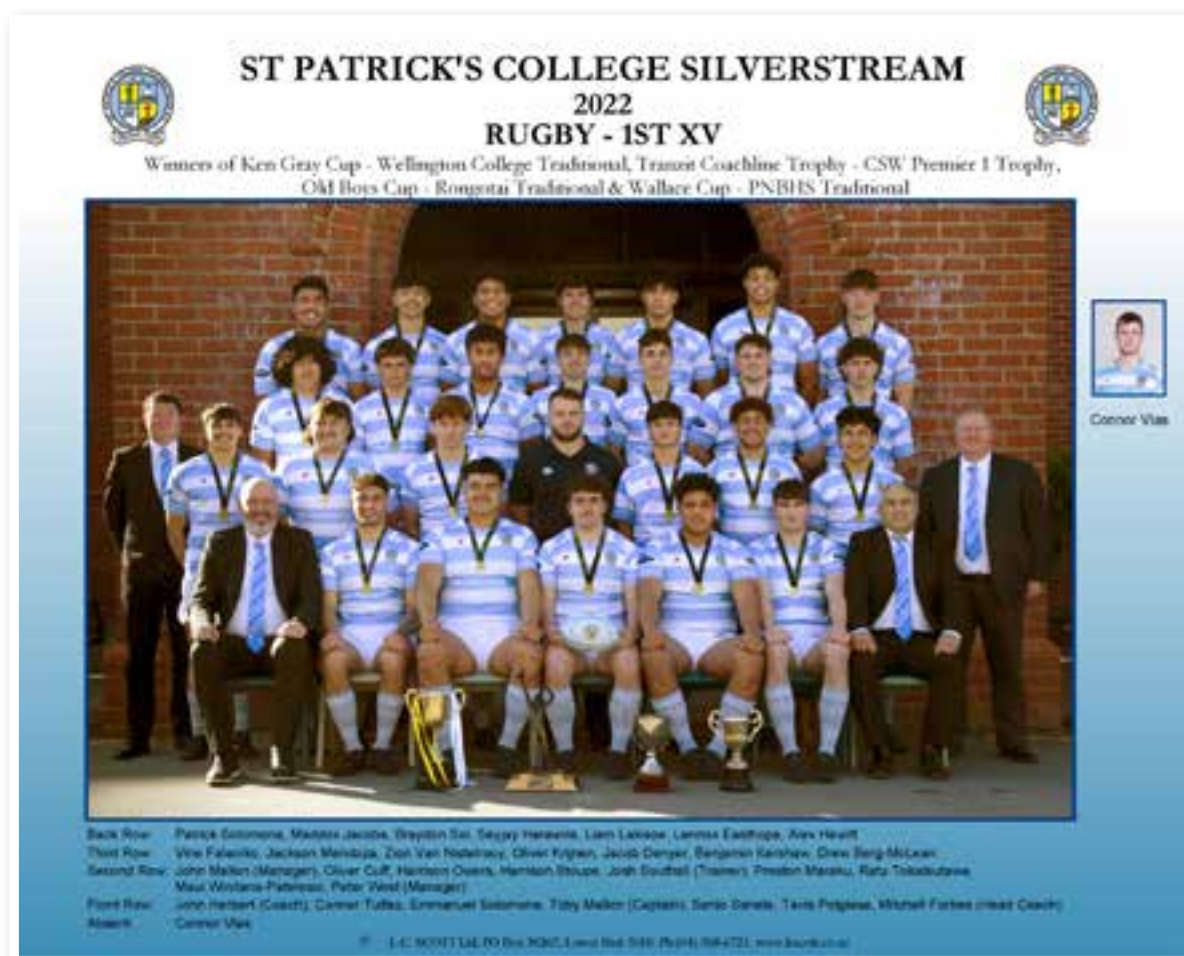

## Junior Softball

## RUGBY

## 1st XV

**Played:** 17  
**Won:** 12  
**Draw:** 1  
**Lost:** 4  
**Traditionals:** Won 3 from 6  
**Points for** 464  
**Against** 206

2022 was a great year for the St Pat's Silverstream 1st XV. Championship winners of the Transit Coachlines Cup and shared winners of the Hurricanes 1st XV Regional Championship; our highest achievement in Stream rugby history.

Our season kicked off with a trip down to Christchurch to play against St Bede's; a Traditional match that was to set the platform for our season. Unfortunately, we did not get the win this year, however; we took advantage of the trip to help us establish our team unity and culture.

The 1st XV Hurricanes Festival saw us up against Hastings Boys' High and Gisborne Boys' High, coming away with a loss and a win, respectively. We then travelled up to Palmerston North Boys' High for our

2nd Traditional of the year and came away with a resounding win against a very strong PNBHS 1stXV. This win was a highlight as it cemented exactly what the team could do when they played well. A loss in the following week to NPBHS brought us back to reality that more hard work was required if we were to achieve our season goals.

Winning our first six matches in the Wellington Transit Cup kept us at the top of the table, with two Traditional wins against WC and Rongotai. A strong and physical performance gave us a well-deserved win against Scots College and propped us up thanks to the several 2nd XV players who helped us manage injuries throughout the season. Having a dominant set piece in our scrums and lineouts was our secret weapon which disrupted our opponents' ability to gain any ascendancy and provided us with a platform to attack their play throughout the season. A loss to St Pat's Town in our final Traditional of the year was a huge disappointment to all of us. Town played a very clinical and tactical game against us and put us under significant pressure for the entire game. This was not what we expected, however, the response from the players was a true measure of the strength and depth

of this team. We won over Mana convincingly the following week which set us up against Rongotai in the semi-finals. We saw off Rongotai by 55-0 to set our place in the Championship Finals against St Pat's Town which was our opportunity to restore our pride and our place in the competition. The finals were easily our best game of the season with few mistakes and dominance across the park. We were strong up front, our trademark all season. We scored out wide with good movement of the ball with great execution from all our players. A physical charge by Patrick Solomona, who is impossible to stop close to the line; soft hands and light feet by Jacob Denyer, and slick movement with a winger's run by Seyjay Harawira, all resulted in tries in the final. Ollie Cuff was also a standout with two conversions and three penalties, giving us enough of a lead to win convincingly.

Transit Cup Finals: St Pat's Stream 28 – St Pat's Town 14

The next two matches saw us in the Hurricanes Regional 1st XV playoffs. Our first match was a physical challenge against a very strong Feilding High School. Fielding started strongly and threw all their attack at us, testing us to the limits of our ability. However, tries to Emmanuel Solomona and Patrick Solomona, with two penalty kicks was enough to give us a win, 16 – 12.

We played the Hurricanes 1st XV Regional Final in Palmerston North against Napier Boys' High School. NBHS were expected to be a physical forward pack, with a range in the backs and attacking ability, which challenged us to play our best rugby. Our best backs' move of the season saw David Tokalautawa break through the defence and a wide pass to Jacob Denyer at pace had J.D in a foot race and a great finish in the corner. Senio Senale finished a continued attack with our 'all to the ball' forward move resulting in our last try of the season, leaving Ollie Cuff to convert. 17 -17 was the final score and a fair reflection of how closely our teams were matched but unfortunately, this was to be the end of our season as Napier went through having scored three tries to our two.

There are several people to thank for our season's success. John Herbert, whose dedication and focus to his famous 'Grunt up Front' program saw great rewards to our forward dominance of our season. John also took charge of our set piece and defence which was also key to our success throughout the season. Thank you, John for all that you do and have done for our rugby program and you leave a great legacy behind you of 'what looks good'. Jess Olorenshaw is the best physio we could ever ask for. Jess has been with us for several years now and has shown a genuine care and interest for our players' safety but also an awareness of how each of the boys tick and what's needed to keep them on the field. John Mallon, Assistant Manager. A key part of our management team and always on hand to cover all requirements of the team. Peter 'Westie' West, Team Manager. A tireless worker and in control across all aspects of our season program. Westie keeps a steady ship and has made a huge impression on our team this year with his accuracy and level of detail. Many thanks Westie for your calming advice throughout the season.

## The Team

**Harry Owers:** Harry had a mixed season with injuries hampering his game time this year. Although a front row specialist, Harry was also known for his pace and agility not to mention his strength in the scrum. A key member of our team with a beautiful voice when called upon to sing. We awarded Harry our Team Spirit Award.

**Senio Sanele:** 7 Tries, 2 Conversions, NZ Secondary School Barbarians Representative and the best prop I have had the pleasure of working with. Senio was so dominant on the field thanks to his dedication to improve his game and work harder. I look forward to seeing Senio's successes in the coming years. We awarded Senio our Best Forward.

**Toby 'The Messiah' Mallon (Captain):** Tireless, Tough, a true leader and an amazing young man. We chose Toby to be our captain this year and he did an amazing job. Known for his no nonsense attitude I saw Toby guide a team of young men quietly and calmly throughout the season. Toby played with incredible resilience and absorbed a ton of punishment in our weekly battles. A leader by example and an exceptional player. We awarded Toby our Most Valuable Player.

**Ben Kershaw:** A big, strong runner of the ball and huge on defence. Ben commented he had never defended so much after our Hastings game at the beginning of the season, but from that point on Ben was first on defence with a big work rate and always ready to carry the ball forward. Ben showed great improvement through the season which is why he secured his position in the starting front row.

**Patrick Solomona:** A wrecking ball and impossible to stop when close to the line. Patrick scored eight tries this season and scored our winning try against WC this year, in the final seconds of the match, and also in our final game against SPC Town. An athlete with raw strength and speed yet a quiet young man who just enjoys going about his work. Thank you Patrick. Patrick received our Most Improved Forward Award.

**Maddox Jacobs:** Maddox is a worker and an athlete and can do everything. I saw huge growth in Maddox this year as he fought for his position within the forward pack and also once on the wing. Maddox worked tirelessly on defence this year and did not stop when he was on the field.

**Tavis Polglase:** All Business! A rock in our line-out and in our scrum this year with a determination to get things done. Hard work and effort would be how I would describe Tavis as he doesn't suffer fools and isn't one for wasting time. And famous for his parting comment 'drinks at mine'!

**Lennox Easthope:** A great year for Lennox as he dominated space on the field throughout the season. A strong carrier of the ball with a few unexpected breaks with only 60 metres to go which is a long way for a lock. A real enforcer this year who made a huge impact on the field and to the opposition. Lennox also added one conversion to his scorecard, highlighting all those goal kicks at practice pay off.

**Connor Tuifao:** Connor is a quiet achiever with a tenacious work rate. When Conner was on the field, he would run the whole time, terrorise the opposition and win the ball and he would not stop. When injured, Conner was every part our #1 supporter at trainings and games. A team man through and through and a big part of our team and our success this year.

**Connor Vlas:** The Velociraptor. Connor did just about everything for us this year and without hesitation. A lock, a flanker, a no8... jump, push, and get that ball. I knew Connor would be relentless on the field and would work all day long, and he did, and all with a look of determination like someone took his can of Red Bull.

**Jackson Mendoza:** Jacko. One of our most popular members in the team thanks to his ability to fit in everywhere. Although one of the smaller forwards in our team, Jackson would more than assert himself in every game he played. A worker on and off the ball, a great teammate and a great loose forward.

**Braydon Soi:** I enjoyed watching Braydon grow in both strength and confidence this year. Braydon secured himself as our No8 and with the help of our dominating forward pack Braydon had time to build into this key role. A strong carrier of the ball and secure in the tackle. I look forward to seeing Braydon again next year and his control in this role.

**Ollie Cuff:** Our top points scorer this year with 78 points. Tough and accurate with a brilliant understanding of the game. Ollie showed some spectacular goal kicking this year especially in our Championship final. One to watch in the future.

**Preston Maraku:** Our youngest team member with a big future. Preston was our halfback in waiting but when he was on the field, he made a difference. Asked to learn his role this year, Preston impressed by wanting more knowledge. A key member of our team and looking forward to seeing him grow in the coming years.

**Maui Winitana-Patelesio:** Maui is one of our gifted players with skills, vision, and balance. Maui grew into his role at #10 this year and finished the year off in great fashion. Soft touches in the finals, safe in the back line under the high ball and big on defence showed how far Maui grew his overall game this year. Another one I am looking forward to seeing more of next year.

**Ollie Krijnen:** The fastest man in NZ rugby. Ollie came into our team with limited rugby history but my thoughts were that there is no substitute for speed. Ollie's physical strength and speed allowed him to get in and out of position quickly and all the while working hard to give us attacking options. I hope you continue to challenge yourself in rugby as you have certainly made a positive difference this year.

**Emmanuel Solomona:** Eman! A runner, a distributor, a communicator, a kicker and a big defender. Eman was a key member of our team this year however it was the latter part of the season where he came into his own. Finding long passes to put our wingers away, soft touches and around the back offloads giving us valuable meters and making our attacking game too difficult to defend. When Eman wasn't scoring his six tries, eight conversions and three penalties (55 pts) he was cutting opposition players in half with big spot tackles. We awarded Eman our Best Back.

**Vincent Falaniko:** Vinney impressed at our preseason with his direct running, timing and hard-hitting defence which he carried onto the field. Given his chance, Vinny worked hard to do everything right. Thank you Vinny and I look forward to seeing your game continue to grow.

**Seyjay Harawira:** eight tries and a cool, calm finisher. Scoring some of our big moment tries this year including one in the Championship Final highlighted just what a smart rugby player Seyjay is. A calming and supportive member of the team and a leader amongst leaders.

**Zion Van Nistelrooy:** Zion grew into his role this year as a strong runner of the ball and impressed on defence. Wanting to do more, Zion took up a challenge to develop his game further, and he did. Zion finished the season strong and I expect big things from him next year.

**Jacob Denyer:** JD... with a big reputation of talent and skill, Jacob didn't disappoint. Although JD missed the middle part of our season because of an ankle injury, he left his best till last. JD finished with the best tries of the season against Napier in the Hurricanes Final. Jacob is a talented young man and will do well I'm sure of it. Jacob won our Most Improved Back Award.

**David Tokalautawa:** Bula. My most favourite, unpredictable, attack from anywhere player. David is one of the most evasive and explosive players in the game. Five tries, two conversions this year puts David in our top points scorers, with big plans for next year. I look forward to seeing more of David's attacking style of rugby. Thank you to all of you for your support.

## 2nd XV

The 2nd XV rugby team has done it again. They have won the Premier 2 grade of the College Sport Wellington Rugby competition and brought home the Murray Jensen Cup, achieving a back-to-back win. It has been an incredible journey for the team this year and they truly deserve all the recognition and have added to the Stream 2nd XV LEGACY.

The 2nd XV began the season with a very clear goal in mind, to win the grade. They worked tirelessly on and off the field, pushing each other to be the best they could be. Their hard work paid off as they went undefeated for the regular season. They were a force to be reckoned with on the field, and often their opponents knew it. The team's dedication to each other was clear in every game they played, and they were a team that played hard, fair, and with a determination to win.

### HOPE CUP

While the 2nd XV was still a wider squad they played in the Hope Cup tournament, as a final trial for selection into the team. The tournament comprised teams from the Hutt Valley and Bishop Viard. The squad played well and went through unbeaten with wins over HVHS 1st XV, Naenae 1st XV, and Wainui 1st XV.

### TRADITIONALS

The 2nd XV plays 3 Traditional games each year against Hastings Boys High School 2nd XV, Hato Paora College

1st XV, and Palmerston North Boys High School 2nd XV. The team managed 2 wins and a loss.

Hastings Boys High School was played at Massey; it was a very intense game and Stream had several opportunities to score but could not convert them into points. The game remained scoreless for 67 minutes and then an error by Stream allowed Hastings to score. Stream narrowly lost 5-0. This was the best game I have seen Stream play against Hastings.

Hato Paora was played away. As always, the team was welcomed with a traditional powhiri and amazing singing by Hato Paora. The best part was having Alex Hewitt reply on behalf of Stream, he did an amazing job. The game was played the game in great spirits. Stream took the lead early and built well, however, Hato Paora never gave up and keep fighting to get themselves back into the game. Stream managed a 38-28 win.

Palmerston North Boys High School again was played away. Palmy Boys scored first, and the boys knew they would need to dig deep if they wanted to win. Thompson led the team around the park He came of age in the second half, and controls the game magnificently to allow Stream to come away with a 28-14 win.

### REGULAR SEASON

As the regular season progressed, the 2nd XV team become more of a cohesive group and they developed

**Best Back – Angelo Winter-Robati** was the team captain and always rallied these troops each week, Thompson Tukapua was a little general around the park, directing the play and always making great decisions on the attack with the ball.

**Best Team Man – Trent Browne** broke his hand partway through the season but was at every training and game without fail and was always willing to lend a hand where needed.

stronger connections with each other. The teamwork and understanding of each other's strengths were key factors in the team's success this year. They worked seamlessly together to create opportunities to score.

The team showed they had the mental fortitude to cope with any pressure from the opposition, staying calm and composed in the face of adversity. The coaching staff played an instrumental part in instilling the right mindset in the team, preparing them for the challenges they faced, and ensuring that they were always ready to give their best each week.

In conclusion, the 2nd XV has achieved what they set out to do, being back-to-back Murray Jensen Cup winners. They have shown that with hard work, dedication, and teamwork, anything is POSSIBLE.

## TEAM AWARDS

**Best Forward - Drew Berg-McLean** was menacing around the rucks, once he was on the ball, good luck to the opposition in getting him off.

**MVP - Thompson Tukapua** was a little general around the park, directing the play and always making great decisions with the ball in hand. He knew to use his kicking game, and he was solid on defence.

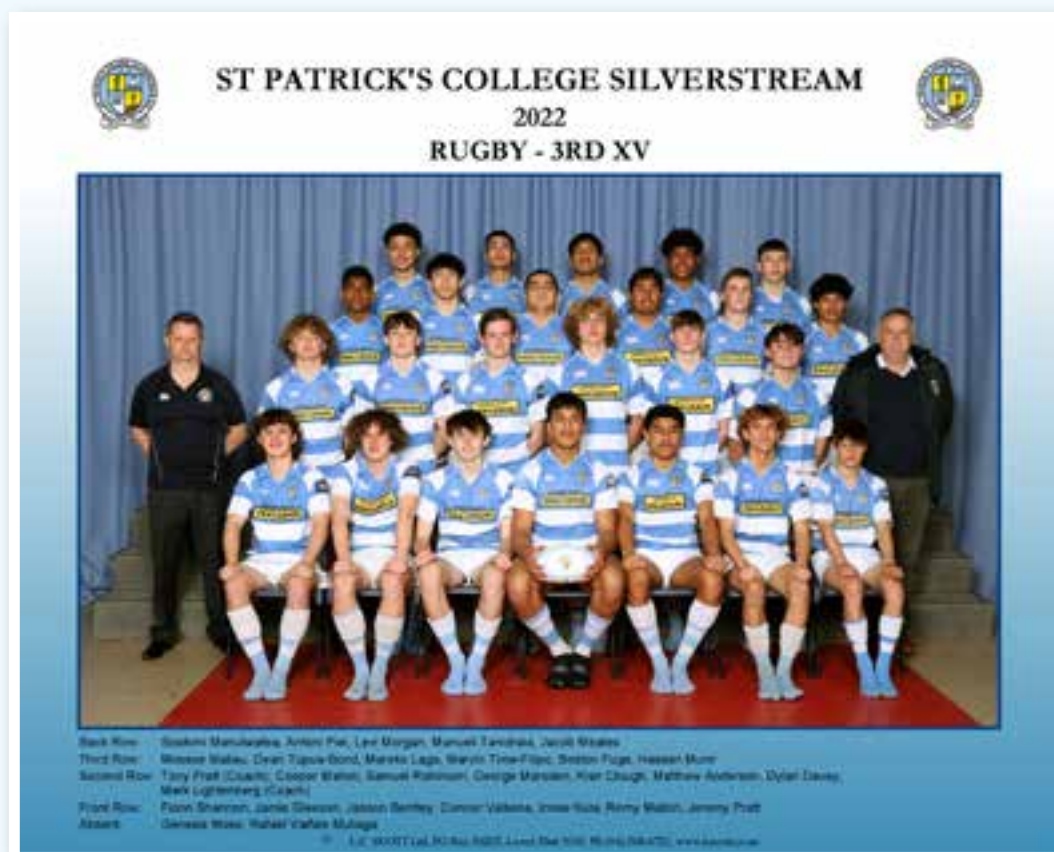

The team management was incredibly proud of this team and we look forward to seeing what these players will achieve in the future. To the Year 13 boys leaving the College at the end of this year, best of luck with your future sporting and academic endeavours!

## 3rd XV

The 2022 season was an exciting challenge for the 3rd XV as it was the first time in several years the team had qualified for the Premier 3 grade, which meant it represented the school in the top 4 premier grades. The grade was going to be a big challenge for the team as five of the nine teams were other schools 1st XVs, along with two 2nd XV teams.

After a solid pre-season where the 3rd and 4th XV teams were mixed, we headed into the first game against Porirua a little underdone. The season overall was one of what could have been. The team had two wins and six losses in the round robin stage with five of the losses being by less than 10 points. The team was competitive in these games and a few less mistakes would have resulted in several extra wins. In the end we finished sixth in the nine team grade, which was a fair result given the quality of the grade. Big congratulations to the following boys who were the recipients of the team awards this year.

**Best Back – Hassan Munir**

**Best Forward – Kian Clough**

**Best Team Man – Marvin Time-Filipo**

I would like to say a big thank you to head coach Mark Lichtenberg and assistant coach Tony Pratt who gave up their time to coach the boys this season. A big thank you to all the boys and parents as well for the way we conducted ourselves on the field this season, and upholding the school's values.

## 4th XV

2022 was a solid year for the team. They finished the season strongly with a spot in the finals of the Premier 4 division. The end of the round robin was exciting for the team as they had to win their last three games to make the finals. The team's strong front row stocks provided an advantage at scrum time. Hunter Fink was a strong presence in the team throughout the year and was consistently leading the forward pack. Jack and Cohen really found their form in the backs and were key to some big wins for the team this year. Several young Year 11 players had their first foray into senior school boy rugby and it was satisfying to see them grow, and to see the older boys in the team trust them to do their roles.

## U15A

"Talent wins' games, but teamwork and intelligence wins championship" (Michael Jordan)

Thanks to the hard work of Karl, Hano, Tucky, and Drew who put their hands up, to take on the challenge of taking the team under their wings and sharing their knowledge and passion for the game. We made the year even more special with introducing the 'Patu Award' which is awarded to a player/s who throughout the week best showed the School's values. It provided an extra incentive for players to not only perform well on the field, but in all aspects of school life. It was great to end each game having players being acknowledged by the coaches and awarded the 'Patu'. We had a formidable forward pack that took them head on and were just as physical in the game. This combined with our backs being elusive and making it very hard for them to read our play, or to guess what we would do next. Holding that championship cup above our heads made all those training sessions in the cold and wet worth it. Thank you to this team of brothers for having each other's backs on and off the field. This will be a season and memory that we will always have together.

Heath Tuifao, Team Captain

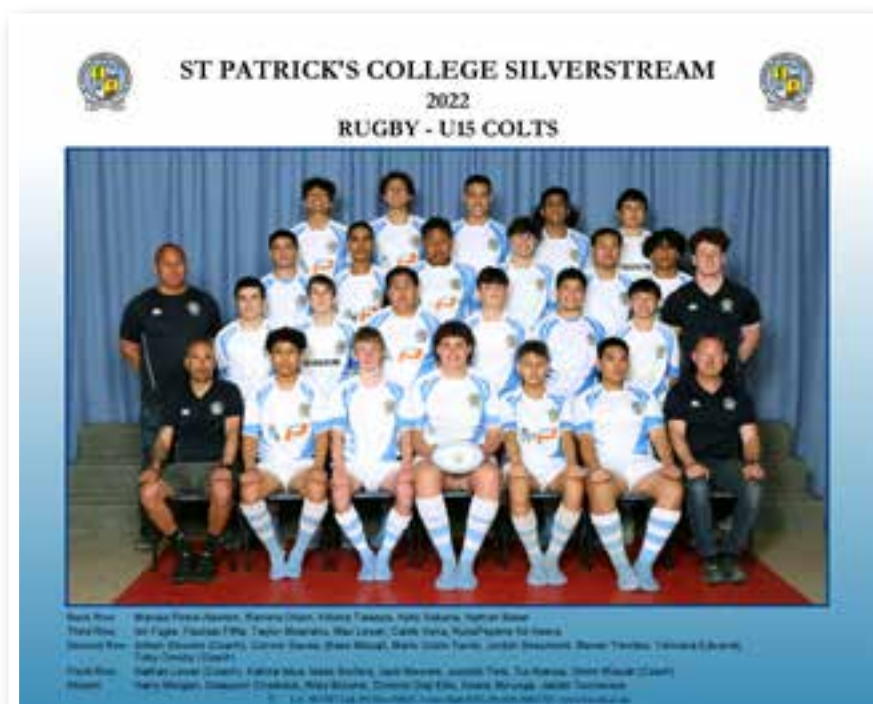

## U14 Team

I was privileged to say that I captained the U14s for 2022. I would like to thank the parents for giving up their time to get us to training and games. I would also like to thank the coaches for the time they put into coaching and supporting us, it really helped our team gel together. It was an awesome year for our boys, I could definitely see a lot of them going further in their rugby career.

Nga mihi, Bailey Ross

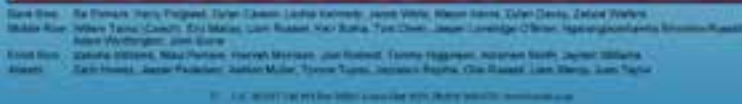

## U15 Colts

After 6 round robin games, 5 wins and top of pool play, we secured a place in Division 2. We also secured wins in traditionals' vs Hato Paora and Wairarapa College. Semi-finals saw a slow start against Rongotai resulting in a 18-26 loss. On a player front, we saw the emergence of Jack Stowers as our 'Best Forward' for 2022. Jack was a strong runner with ball in hand and led by example for the team. Notable performances as well by Max Lewer and Harry Morgan in a forward pack, that dominated set pieces throughout the season, in particular their lineout, taking a fair share of opposition ball in most games. In the backs we saw Leli Fagia come through the season with some standout games, running sharp and hard and putting in some thumping hits on defence. Leli thoroughly deserved our 'Best Back' Award. Mention also to Manaia Pirere-Newton who directed the team well from 1st five. For our 'Team Man' award, we couldn't go past Jordy Beaumont! Whether at training, on the field leading by example, or off the field always first to shake hands after trainings, pick up gear or just display that team spirit.

Toby, Nate, Aitken and Glenn

## Tournament Teams

# RUGBY LEAGUE

# RUGBY 7'S

After a busy 15-a-side rugby season, approximately 20 players began training & preparation for the Senior 7s campaign in Week One of Term 4 with a series of training sessions under the supervision of Amena Tokolautawa (coach).

The first tournament of the 2022 campaign was the College Sport Wellington Regional 7s tournament on Labour weekend. The team produced some capable play throughout the tournament to finish runner-up. This performance also saw us qualify for the National Condor 7s tournament which became a focus for the remainder of the campaign.

In preparation for the National Condor 7s tournament the team committed to regular after school training sessions, & they competed in both the Hurricanes Region 7s tournament in Masterton and an invitation tournament hosted by Feilding High School. During this period the team developed their play & understanding of the game of 7s.

The two-day National Condor 7s tournament, held up in Auckland was an exciting experience for the team which also saw them produce some very competitive performances against some high quality 7 teams. On reflection it was pleasing on the way the team competed in the tournament, & to see the overall growth and development of the team, over the entire campaign.

A big thank you to the team sponsors for your support of the campaign – Summit Capital, Pacific Horizon, Wellington Lightweight Roofing, DKGM Sportswear & St Patrick's College Old Boy's Association. Thank you also to the supporters and parents who helped with fundraising – it was very much appreciated.

Finally, thank you to our coaching and management team, Amena Tokolautawa & Peter West – for your leadership & support of the players throughout the campaign.

# TENNIS

## VOLLEYBALL

## Senior A

Volleyball is the fastest growing sport in New Zealand and there is no exception here at Silverstream. This year brought together a team of boys committed to achieving not only team goals but also personal goals too.

Our coaching team this year was made up of the dynamic duo of Junior Paulo and sister Rox Polaia. Two people who have a real passion for the game and also seeing the success of the sport here at the College. Each year we never know what it will bring as it brings together a combination of boys wanting to play and give the sport a go, junior boys moving up and also combining this with senior boys who already play.

Both Junior and Rox certainly had their work cut out for them.

The goal is always to make the top four teams in the Premiership and again in the Wellington Regionals. Anything above this is a bonus. Unfortunately for us this year, Covid once again put a stop to some of our games and to some of our planned training sessions. There were many clashes with other sports that the boys played and COVID isolations, that boys were forced into. We had to, in some cases, play catch up games or use players from our junior team to cover for those in isolation. In cases like these, it's always a great chance to look at and begin to develop the upcoming talents of the younger players and for them to get a taste of senior volleyball games, which in most cases are a lot faster, require more strategic play and quick paced thinking, and decision making during a game.

Despite all of this we were just tipped in the finals against a very strong St Bernard's College team, giving us a second place spot in the Premiership.

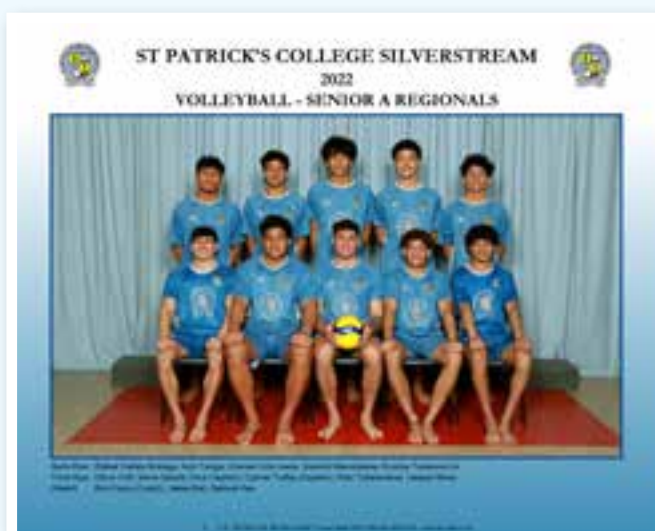

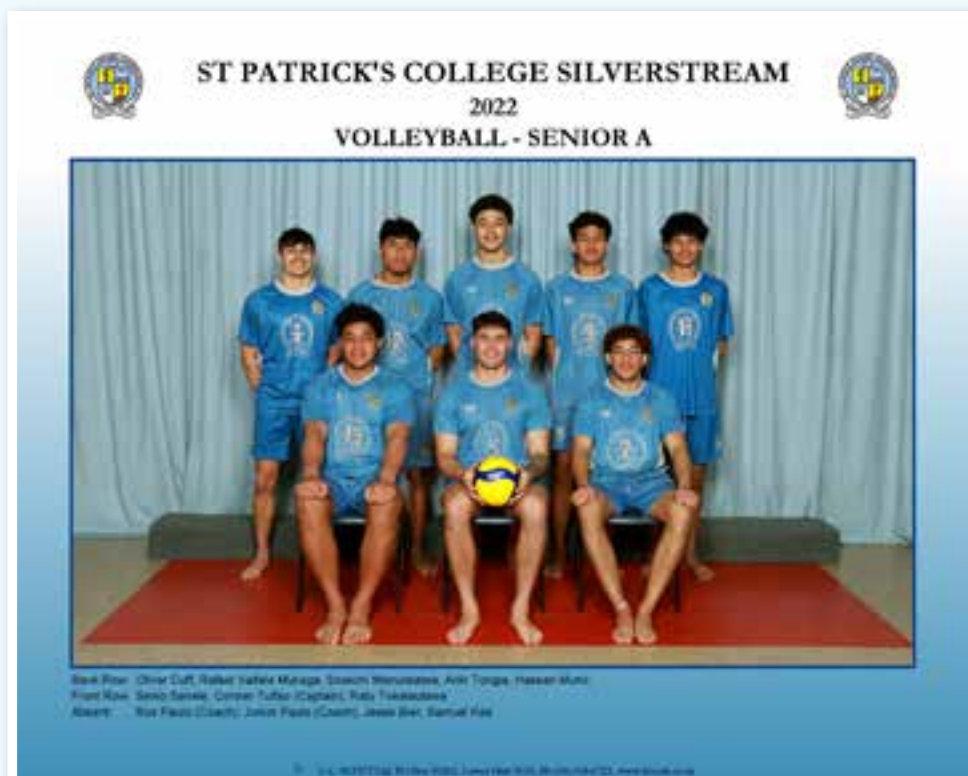

In the Wellington Regionals we came third which was still a positive result all round.

It was a pity that the Nationals were canceled as we had a good shot to improve on our last year's results. We were all looking forward to displaying our talents on the national stage as it is always a highlight for all volleyball players. It is also something our supporters at school and home can spectate on the livestream.

I would like to acknowledge our coaching team for turning up in a challenging season for us. Grateful and thankful to Karen Edmonds for helping to transport the boys to some of our games and to all our families for helping us when called upon.

We can't wait to see the young talent coming through to continue the success that Stream has had.

Conner Tuifao

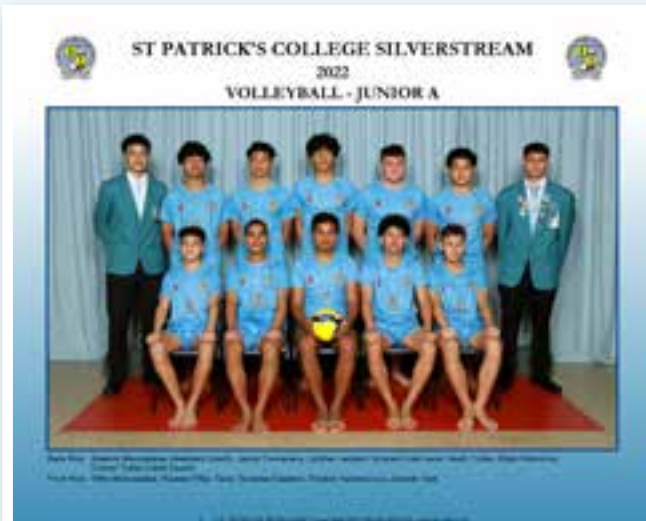

## Junior A

I'd like to first acknowledge the talents of the coaches that we were lucky to have. Junior Paulo and Markus McCarthy, both Old Boys of the College, jumped right in to help support our team; and to Conner Tuifao and Soakimi Manulaitea, our current seniors, playing in our College team who without fail continued to be available to coach a very mixed group of boys. Thank you for sharing your knowledge about the game but most importantly working on developing the individual skills of each player to find the right position to benefit the team.

When doing so, there are so many great moments, but I'd like to write about our recent regional volleyball tournament played at the ASB Sports Arena in Wellington over a period of two days.

Over the two days, I would have to say we were in a difficult pool, playing a much-improved St Bernard's College, a determined Mana College, and a gutsy effort from the Hutt Valley High School team. After a successful first day, we were set to play the winners of another pool. This meant coming face to face with Wainuiomata College who we face in our college weekly league and they always provides us with a real challenge.

Our final was against a skilled Wellington College team. Our game plan was simple: use our size against them and force them into the blockers. They really took it to us and challenged us from the start. I'd like to say the pressure was real, but the cool, calm and experience of our coaches really settled us and led to a convincing 2-0 win. We did not drop a set the whole tournament, a rare feat.

On behalf of everyone, I would also like to acknowledge our parent supporters who offered to drive the school van, feed us, and come along to support us on the sidelines at different times during the tournament. We know that without you we would not have managed to get to games and the successful tournament that we had.

We hope that we've done our coaches proud and that we can continue to grow the game for other boys coming through.

I'd like to also acknowledge the following boys from our team who made the tournament team:

Krisnan-Cole Ioane

Willie Manulaitea (also named the tournament MVP)

Heath Tuifao

A special mention to Karen Edmonds and Stacey Lio who worked with our coaches and made communication clear for our team members and families. Thank you so much for your work behind the scenes.

Fa'afetai

God bless

Heath and Conner Tuifao
